35 Years to Exoneration

February 1987 to June 2022

The True Story of Sandy Shaw

By Sandy Shaw with Dan Gleason

How many fifteen-year-old girls have witnessed **four** murders?

Well, Sandy Shaw wishes she wasn't in that group.

In 1987, when Sandy heard the bark of the first pistol shot right next to her ear, she bolted and ran for her life. After ducking behind desert scrub brush in the dim glow of the moonlight, she spotted eighteen-year-old Troy Kell and his buddy Billy Merritt standing over the **dead body of James Cotton Kelly**. Though only fifteen, this was the **fourth murder** Sandy witnessed in two years.

Touted as the “**Show & Tell Killer**” by the media because a crooked prosecutor told the press and jury she took classmates to view the dead body, Sandy was immediately maligned by the press. She was convicted and sentenced to **two life terms without parole** and became the **youngest female ever incarcerated in an adult Nevada prison**. Shaw endured **twenty-one years in prison and fifteen more on “lifetime parole”** for this **wrongful conviction** before being **fully exonerated in June of 2022** by the Nevada Supreme Court. Yet, she lost her entire youth in the process—the best years of her life. She never went to Prom. Never got married. Never had kids. Her dreams were stripped away.

And she has **never** told her story. Now—being fully free—the time is right to tell it.

35 Years to Exoneration is a crisis-driven tale of violence and murder, tragedy and injustice, and ultimately—triumph. This true life story is of a woman with extreme bad luck, a childhood ripped away, generations of dysfunction before and alongside her who endured abuse of all kinds, and who still found her way to freedom and redemption after so many years of being denied.

THE IMPOSTER:

THE UNTOLD STORY OF HISTORY'S MOST NOTORIOUS SECRET GOVERNMENT OPERATIVE

by Anthony M. Amore

ON SUBMISSION

In 1951, a man calling himself Jean Pierre LaFitte (after the famous pirates) but known to the federal government as Jacques Voignier was jailed on Ellis Island on immigration charges. LaFitte, the feds said, was “considered to be one of the leading criminals in the United States.” Such was his growing infamy that his story found its way onto the front pages of the New York newspapers.

Ironically, news of his criminality proved the key to his avoiding deportation. While on Ellis Island, LaFitte made the acquaintance of Corsican-born gangster Joe Orsini. Orsini had seen the newspapers and knew of LaFitte’s reputation. Soon, the pair started spending time together in immigration detention, conversing in French and Italian. Orsini grew to trusted LaFitte and shared with him the breadth of his narcotics operation, which spanned Italy and New York. Orsini knew he was soon to be deported and that his operation suffered without a trust person to run it for him. LaFitte saw an opening: he told Orsini that he would be that man.

“But you’re being deported, too,” Orsini said. LaFitte laughed and assured him bail was being arranged.

It was another of LaFitte’s bluffs. Instead, he contacted the Federal Bureau of Narcotics—the precursor to the DEA—and offered to go undercover as their agent to bring down Orsini’s gang from within while acting as a mob boss. The Bureau bit, and LaFitte did as he promised, securing the prosecution of a dangerous gang of heroin-dealing mobsters. He would go on to be one of the greatest secret contract operatives in the history of the United States.

Soon, LaFitte was the Bureau of Narcotics’ go-to man for dangerous undercover operations. Born for the role, he would go on to work with the nation’s top drug agent, Col. George Hunter White, to take down a Chinese heroin ring, counterfeiters working for Murder, Inc., leaders of The French Connection, and a vast underworld network operating in Las Vegas, among others. Along the way, LaFitte recovered what today would be upwards of ten million dollars in stolen art posing as an underworld fence for stolen goods.

LaFitte’s talents were not limited only to impersonation. He was an acclaimed chef who later took a job at the posh Plimssoll Club in New Orleans, earning the adoration of Lady Bird Johnson. And he was a painter who was commissioned to complete the portrait of a state Supreme Court justice. All of this, of course, was done under one of his countless aliases.

Not everything LaFitte did was heroic. With the aliases came innumerable scams and arrests here and abroad. And with his association with his patron, Col. White, came what appear to be other, darker ventures. There is little doubt that LaFitte worked with White when the latter ventured into sinister side work for the CIA on illegal mind-control experiments that involved doping unwitting citizens to measure the effects of LSD on them. In 1953, one scientist, Dr. Frank Olson was doped and ultimately died in what was first deemed to be suicide but later revised to “undetermined.” Dr. Olson jumped—or was pushed—from a window at the Statler Hotel in Manhattan, where the bellhop that night was identified by the hotel manager as Pierre LaFitte.

LaFitte’s exploits get eerier, with hints of political assassinations at home and abroad. He was like a real-life crime-fighting Forrest Gump with a dark side and involvement in some of history’s most dramatic crime-related events.

The Imposter will be meticulously and exhaustively researched and documented, drawing upon information obtained via Freedom of Information Act materials, FBI files, newspaper stories dating back as far as 86 years, and long-forgotten articles from out-of-print publications obtained by the author.

"Griffin Dix's book is highly readable, heart-rending, engrossing and suspenseful. It is not a novel, or a fictionalized version of a true story. It is the true story."

WHO KILLED KENZO?

The Loss of a Son and the
Ongoing Battle for Gun Safety

GRIFFIN DIX

Who Killed Kenzo

By Griffin Dix

Woodhall Press | October 2023

In 1994, fifteen-year-old Kenzo Dix visited a friend's house. His friend retrieved an unlocked handgun from beside his father's bed, removed the clip that had bullets in it, walked back into the room where Kenzo was, and pulled the trigger to play a joke. He expected only a click and a punchline. But a bullet was hidden in the chamber. That hidden bullet, that pulled trigger, which unlocked gun, that friend— killed Kenzo.

A brilliant young lawyer at the Brady Center helped file a lawsuit to force Beretta USA to sell safer handguns. As Griffin and his

wife grieved, the *Dix v. Beretta USA* courtroom battle followed. Three trials brought face-to-face lawyers from the nation's largest gun-violence prevention organization and the gun industry to argue over the causes of Kenzo's death.

Following the courtroom loss, Dix threw himself into gun safety advocacy and he worked to change state legislation. These California laws helped reduce the state's rate of unintentional gun death by two-thirds. When the safer handguns were sold nationwide, they helped bring down the rate of unintentional gun death in the rest of the country as well.

But the work isn't done.

Dix has led the Oakland, California Brady chapter for many years, and was elected nationally by the chapters to represent them on the Brady Board for a term from 2006 to 2008. A Ph.D. in cultural anthropology, Dix has been featured and written in the *New York Times*, *The Hill*, *The Daily News* and more. Dix is one of the leading research experts and gun safety activists of our time and his story, experience, and legal strategy continue to be relevant today.

TOO PRETTY TO LIVE

The True, Strange Story of the Catfishing Murders of East Tennessee

By Dennis Brooks
Diversion Books

One morning in Mountain City, Tennessee, a young couple were found dead in their home. Shot through their heads. The woman died holding in her arms her baby son, who was still alive. The mother was wearing pajamas. The bullet that killed her lay in the baby's bouncy seat.

The motivation behind these killings is a shocking story. A collection of four people contributed to the crime. A father who fancied himself a pseudo-CIA agent and acted under the belief he was protecting his family. A boyfriend in his late 30s, gullible to the commands of the first female to ever give him attention, entering the victims' home to aid the father. A mother, chronically overprotective and delusional, who domineered and controlled the men. And at the center of it all, a young woman able to manipulate them all despite her limitations.

Jenelle Potter, 30 at the time of the deaths of Bill Payne and Billie Jean Hayworth, had lived her entire life in her parents' home under their watchful eyes. As an adult, she never held a job. Socially awkward, she was drawn to the internet for the opportunity to communicate with the world. Through the type-written word, she was able to be anyone she wanted to be.

After Bill and Billie Jean began their relationship and started a family, Jenelle began assuming fictitious online identities to influence others to align against the couple and their friends. Presumably, Jenelle had been attracted to Bill. His new love for Billie Jean sent Jenelle into a jealous rage and pattern of harassment against Billie Jean and her friends. Jenelle's main pseudonym was Chris, a purported CIA agent who had gone to school with Jenelle. As Chris, Jenelle wrote often to her mother, Barbara Potter, who soon began to think of Chris as being like a son. Yet Barbara never met Chris, in spite of her yearning to do so. She was "catfished." Chris wrote to Barbara about the surveillance he had conducted on the victims and how the victims were conspiring to harm Jenelle.

Through this correspondence, Jenelle was able to convince her mother that she was in danger and that the danger would only end with the victims' deaths. Barbara thus began encouraging her husband, Buddy Potter, to act. Chris promised CIA backing for the sordid deed. Jenelle also assumed the Chris identity in writing to her secret boyfriend, Jamie Curd, who was also "catfished." As Chris, Jenelle was able to pit Jamie against his cousin, Bill, and manipulate him into assisting Buddy.

Too Pretty to Live tells the story of this crime and its ensuing prosecution. Dennis Brooks was a 17-year veteran Assistant District Attorney when the matter came to him with only the men being charged. Through a creative use of forensic linguistics and utilizing the theory of criminal responsibility, Brooks was able to weave together a case that ultimately convicted each of the Potters of two counts of first-degree murder. This story will shock and amaze you.

Dear Jacob:

A Mother's Journey of Hope

By Patty Wetterling with Joy Baker

Minnesota Historical Society Press | Oct. 17, 2023

In 1989, Patty Wetterling was a 39-year-old mother of four who was married to her chiropractor husband and lived on a quiet cul-de-sac in a small Minnesota town. With kids ranging in age from 13 to 8, she was just starting to wonder what she wanted to do with the rest of her life. She'd recently renewed her

teaching license and was about to accept a position as a part time math teacher at a nearby prep school. That's when all hell broke loose. Overnight, her life was tossed onto a new and horrifying trajectory.

On October 22, 1989, Patty's 11-year-old son, Jacob, was biking home from the video rental store with his friend, Aaron, and younger brother, Trevor. It was a night like any other in tiny St. Joseph, a town where everybody knew everybody. But, on that night, a man dressed in black and wearing a mask walked onto the road in front of them and said, "Stop. I've got a gun."

The man ordered the three boys to put their bikes in the ditch and lie face down on the ground. One by one, he asked them their ages, then told Trevor and Aaron to run away. "Don't look back or I'll shoot!" he threatened. When Trevor and Aaron finally did look back, Jacob and the man were gone.

DEAR JACOB is the raw, untold story of the 27 year search for Jacob, as told by the person who knows it best – his mom. For her own survival, Patty Wetterling chose to rise above the doubters who believed Jacob was dead and, instead, focus on hope. She became a sponge, soaking up every bit of knowledge on missing kids and how to find them. Her efforts eventually led her to Capitol Hill where she met the President and lobbied Congress to establish a national sex offender registry. It passed as the "Jacob Wetterling Act" of 1994.

Over two and a half decades, Patty became a well-known speaker, trainer, and national advocate for missing children. But in 2014, despite all her efforts to find Jacob, she was faced with the horrible reality that Jacob had been missing for 25 years. That's when she was joined on her quest by two unlikely allies – a blogger and a plumber who, at age 12, had been kidnapped from a nearby town and sexually assaulted the same year as Jacob. Working together, Joy and Jared uncovered a string of similar assaults on young boys in nearby Paynesville that had never been fully investigated.

Combining forces, Patty and her husband, Jerry, joined Joy and Jared on a quest for answers. In 2015, under mounting pressure from the public, a multi-agency team would eventually step in to review the case and discover old DNA evidence that led to the arrest of a longtime suspect. One year later, in 2016, Danny Heinrich would accept a plea deal, confess to Jacob's murder, and lead authorities to his remains.

HONOR BOUND:

My Journey to Hell and Back with Amanda Knox

By Raffaele Sollecito with Andrew Gumbel

Gallery Books/Simon and Schuster

The story of Raffaele Sollecito is a natural for the movies. It is both a thriller and a love story. Its protagonists are young, attractive and innocent. Its antagonists are compelling, Machiavellian, and marvelously complex. It has a natural three-act structure: Raffaele and Amanda Knox meeting and falling in love; their arrest and incarceration; and their struggle— seemingly impossible at first, but ultimately successful— for vindication and freedom.

As in the best love stories, there is nothing static or simple about the relationship between the lovers. Raffaele would most likely have been dumped and left heartbroken if the murder of Meredith Kercher had not intervened. He and Amanda then formed an extraordinary bond, even though they had no physical contact during the four years of their incarceration. Over and over, Raffaele came under pressure from the prosecution, from his own lawyers and from his family to change his testimony and get himself off the hook. All he needed to say was that he didn't know whether Amanda left his house on the night of the murder. But he refused to say it, because that would have meant betraying Amanda and leaving her to swing in the wind. He knew she had not left his house, because she did not have his key and would have needed to be buzzed back in. He never wavered on this point. He had a keen sense of justice, but also a heart carried away by his infatuation.

Beyond Raffaele's prison cell was a scheming and conniving public prosecutor determined to prove that the sexually uninhibited Amanda was some sort of witch or devil; a complex game of legal brinkmanship in which the prosecution and defense were both jockeying for maximum advantage; Raffaele's own family, who worked tirelessly to demolish the evidence against him but also fought bitterly with him because they felt he was gratuitously throwing his life away for an American exchange student who didn't care that much about him.

A movie adaptation of this story would be fast-paced, full of surprises even for viewers who followed the case on television or in the newspapers, visually compelling (the beauties of Umbria and the Apulia coast contrasting with the cold gray of Raffaele's prison cell) and crammed with great characters:

- Raffaele's passionate but overbearing father;
- his sweet-natured sister punished at every turn for the charges leveled at her brother;
- the public prosecutor, Giacomo Mignini, who has all the makings of a memorable screen villain, plus;
- the craven, weak lower court judge who convicted Raffaele and Amanda;
- Raffaele's talented but realistic legal team, who tried to short- circuit the system but ended up working painstakingly to dismantle the case against him piece by piece;
- a clutch of improbable and wildly unreliable eyewitnesses and expert consultants, each of whom could be a terrific cameo; and, of course,
- Amanda and Raffaele themselves— appealing, mismatched, desperately unlucky and ultimately, if improbably, heroic.

Housewife Assassin: The Woman Who Tried To Kill President Ford By Geri Spieler

Diversions Books, February 2023

Optioned by Writer/Director/Producer Steven DeKnight

WHAT IF ... a country club mother and doctor's wife took **Dead Aim** at the President of the United States and came within six inches of killing him?

WHAT IF ... we find out this would-be assassin was also:

- ... a paid informant for the FBI
- ... a double agent for the radical underground
- ... picked up and released by the Secret Service just 14 hours before she tried to kill the President?
- ... the shooter who carried out the **plot** of a group of federally identified conspirators who set out to kill the president?

That assassin was Sara Jane Moore.

Sara Jane Moore was a despondent housewife searching for an escape from her stale, suburban life as a mother and homemaker, only to seek her independence through the unlikelyst of decisions...planning to assassinate the president. At the beginning of 1974, she was a Suzy Homemaker housewife to a successful doctor, mother to her son, and a model "Reagan boosting" country club member. By 1975, she becomes the only woman ever to fire a bullet at a sitting president. The \$64,000 question is "Why?"

It all starts on a cold February evening when the domestic terrorist organization Symbionese Liberation Army releases a hostage recording of their latest victim, newspaper heiress Patricia Hearst.

"Mom...Dad..." The sounds of Patty pleading for her parents to give in to the SLA's demands for a massive food giveaway sear into the minds of anyone who heard them. They certainly changed Sara Jane's life. And changed the course of history.

Like a twisted, real-life version of Forrest Gump, Sara Jane's volunteering leads to working with most of the significant historical players in the war between the Feds and San Francisco's radical underground. She starts as an apple-cheeked soccer mom handing out meals to the needy, becoming one of the trusted confidants of both the Hearsts and the extremists. Only then does she get the most unlikely call of all: an invitation into the FBI.

This soon-to-be would-be assassin was first a paid FBI informant. Through divorce, betrayal, and murder, Sara Jane slowly becomes radicalized herself, unbeknownst to her handlers at the Bureau. The vice tightens further when she becomes a double agent, feeding intelligence to a group of federally identified conspirators who were out to kill the President.

Through the lens of a thriller with shocking twists and horrifying revelations based on deep research, this book answers the obvious question, "Why would anyone try to assassinate Gerald Ford?" with a bullet.

But it also asks a better one. "How well do you know your mother?"

It's the story of an unlikely assassin, unlike any other female assassin story ever seen on screen. With themes that couldn't be more relevant to the moment—when women's rights face their gravest threats since the Equal Rights Amendment passed the first time. Right as this story begins...www.GeriSpieler.com

"Spieler offers a portrait of an erratic, unstable woman with a protean capacity to shift identities, with the 1960s and '70s as a dramatic backdrop. Fans of true crime accounts or contemporary history will savor this." —Publishers Weekly

DEEP IN THE WOODS

By Brian Johnston—POST HILL PRESS

Book trailer: <https://www.youtube.com/watch?v=TIzPyOvJGTg>

On a sunny Friday afternoon, May 24, 1935, curly haired nine-year-old George Weyerhaeuser was snatched off the streets less than three blocks from his house, while walking home from school. George was not just any boy. He was a Weyerhaeuser, heir to America's mightiest timber dynasty. To this day, his great grandfather, Frederick Weyerhaeuser, is still considered the 12th richest man in American history. Bill Gates is 11th.

The ransom note contained 21 demands, the first being that the kidnappers wanted \$200,000 – over three million in today's dollars – in small, unmarked bills, and the money had to be paid within five days. Or else. The family was instructed to communicate with the kidnappers through personal ads in the Seattle Post-Intelligencer newspaper, using the code name "Percy Minnie." While the family scrambled to raise the money, the kidnappers kept George sealed in a trunk, locked in a closet, manacled in a dirt pit in the forest, and chained to a tree. When the Weyerhaeusers produced the money hours before the deadline, they received a letter with exacting instructions for the drop. The payoff played out like something ripped from a Dashiell Hammett novel with the kidnappers driving off with a king's ransom.

The kidnappers, true to their word, released George. They took him deep into the woods and left him by a timber road in the rain with a blanket and one dollar. After waiting two hours in pitch darkness George took it upon himself to find his way home. He hiked for miles until finally coming upon a farmhouse.

The farmer piled him into his Model-T and headed for Tacoma, stopping in the town of Renton, to call the family. The telephone system the FBI had set up in the Weyerhaeuser home failed miserably: the farmer's call never made it through. Frustrated, the farmer then called the Tacoma police. At that very moment, a Seattle Times reporter was in the police station and overheard the call between the farmer and the police. He hailed a taxi and instructed the cabbie to race to Renton while keeping a weather eye out for a Model-T. The cabbie and reporter spotted the car and managed to get the farmer to pull over. The reporter insinuated that he was with the police, gave the farmer five dollars for his trouble, and the farmer handed George over, no questions. The reporter then instructed the cabbie to drive back to Tacoma on back roads, while he sat on the backseat floorboards, out of sight, and interviewed the boy. With George home, thus began, as the New York Times called it, *The greatest manhunt in Northwest history*.

The kidnappers were William Mahan, a career criminal bank robber and the mastermind of the caper, and the husband and wife team of Harmon and Margaret Waley. Harmon was a 24-year-old petty thief, and Margaret was a 19-year-old Mormon girl who had never been in trouble and who, according to her faith, did whatever husband told her to do.

The FBI managed to register the serial numbers of all 20,000 ransom bills. It took 4,200 person-hours accomplished within three days. The list was then spread across the land. When Margaret tried to pass a five-dollar ransom bill to purchase a twenty-cent cigarette case for her father at a Woolworth's department store, the FBI swooped in. Harmon was apprehended hours later after he burned several thousand dollars of the money in a potbellied stove.

After the Waleys were busted, William Mahan managed to evade the law. He was almost captured the

following day on a one-in-a-million chance encounter in Butte, Montana. While standing on a street corner, he locked eyes with a police officer who, remarkably, recognized him because he had arrested Mahan years earlier. After a chase on foot, Mahan escaped when a guard dog got between him and the cop, and the cop refused to shoot the dog. As a result, Mahan remained on the lam for another year.

In the meantime, the Waleys went to court. Harmon pled guilty and was sentenced to 45 years at Alcatraz, rubbing elbows with the likes of Al Capone. Margaret tried to plead guilty – even though she never once saw George during the entire duration of the kidnapping – because she couldn't imagine her husband behind bars while she remained free. The judge refused to allow her to plead guilty, based on the evidence, and she went to trial. And what a trial it was, becoming one of the most sensational and high-profile cases in the region's history, the courtroom packed to overflowing. While the courtroom drama was playing out, a different drama was taking place on the streets. The Northwest was in the grip of a massive lumber strike, complete

with riots, bayonet-wielding National Guardsmen, smoke grenades, and buildings dynamited.

Margaret's lawyer was the former mayor of Seattle, and as her defense he chose to characterize her as the stupidest woman on the planet. It didn't work. She was sentenced to 20 years on a Michigan work farm. On the day she was sentenced she vowed she would count the days, the hours, the minutes before she and her beloved Harmon would be reunited. A day later she blamed him for all her misery.

One year after the kidnapping, Bill Mahan's luck finally ran out. He was captured in San Francisco, pled guilty and was sentenced to 60 years in Alcatraz.

Twenty-eight years after going to prison, Harmon Waley was released. By then, George Weyerhaeuser was a grown man, and one of the top brass in the Weyerhaeuser organization. Waley, now 52-years old, called his former kidnap victim and had the gall to ask George for a job. George Weyerhaeuser, in a breathtaking display of grace and compassion, hired him.

"Thoroughly riveting and ultimately redeeming examination of an American mystery. Like a great profiler, Cosgrove reveals both the darkness and light in his subjects."

--**John Douglas, FBI profiling pioneer & co-author of the #1 New York Times bestseller *Mindhunter***

"Both a true-life murder mystery and a family saga, *Ripple* is, at the same time, a lament for the universal human condition. Through sensitive prose and self-revealing introspection, Jim Cosgrove chronicles his decades-long quest to uncover the truth of a family friend's disappearance and death and, in the process, has produced a moving and revealing chronicle of the challenge in truly knowing what is in another person's heart."

--**Mark Olshaker, documentary filmmaker, novelist and co-author of *Mindhunter* and *The Killer's Shadow***

Follow journalist Jim Cosgrove as he picks up the trail of a decades-old case involving the disappearance of a family friend. In 1982, Frank McGonigle, a hapless Grateful Dead fan, left his Kansas City home and never returned. His large Irish-Catholic family searched nine years for him, only to learn of his murder in a gritty South Carolina fishing village.

With the help of a cast of salty characters, Cosgrove uncovers connections to a ruthless local crime boss and miscues from a threadbare sheriff's department. A chance meeting with a soft-hearted psychic who provided freakishly accurate details about Frank's death put Cosgrove face to face with the alleged killer. After a 25-year investigative journey that has brought the McGonigle family some long-sought closure, it's clear that Cosgrove's story and Frank's have become inextricably intertwined. *Ripple* interweaves themes of familial bonds, guilt, redemption, compassion, and self-discovery with a thread of the esoteric.

Award-winning entertainer, author, and speaker Jim Cosgrove is a former staff writer for the *Albuquerque Journal* and for Hallmark Cards. His first book, *Everybody Gets Stinky Feet* (Mighty Mo Productions, 2017), is a collection of essays from his time as a parenting columnist for *The Kansas City Star*. His three children's books *Bop Bop Dinosaur*, *Sullen Sally*, and *Hark! It's Harold the Angel* were released in 2020 by Ascend Books.

THE ROAD OUT OF HELL

Sanford Clark and the True Story of the Wineville Murders

By Anthony Flacco with Jerry Clark

Sterling Publishing

And you wonder: How the hell did this guy go on to be a loving father and how they'd bury all that crap? That's a story in itself."

-Clint Eastwood, Director of THE CHANGELING

*The film story of young Sanford Clark and his forced participation in the Wineville Murders was covered in Clint Eastwood's movie, THE CHANGELING, but for answers to the questions Eastwood posed after completing the project, turn to the true story of the Wineville murder and Flacco's The Road Out of Hell. **The hell part isn't what makes the story important; it's the road out that does.***

The Road Out Of Hell travels beyond the murder farm. This story puts us behind young Sanford Clark's POV throughout his capture, then past the trial, conviction, and execution of Gordon Stewart Northcott. It is based on the question, how can any child endure such treatment for two years and somehow go on to build a positive life?

We follow this shattered boy through a stint in the reformatory until age 18 (for being in the States illegally), then his deportation back to his childhood hometown in Canada. There, initial public suspicion remains high, even though the press has made it clear he was never a willing perpetrator. For those first months after returning, every social encounter is a quiet ordeal, either over his treatment by others or because of his own painful shyness.

Soon after he comes home, Canada joins Britain in what will become the Second World War. Sanford enlists and fights heroically in Europe, commanding a cannon crew through heavy artillery battles. His cheerful demeanor while under fire inspires his fellow soldiers; a quick death from an exploding shell doesn't seem to scare him at all. Sanford cracks corny jokes while they load and fire. He earns a number of combat medals.

He returns from war and gets a job as a postal carrier with a route in his old hometown. Courage under fire has burnished his public image a bit, and slowly, his persistently kind and personable demeanor wins people over. He meets June at a party when she rescues him from a solitary corner. They hit it off and she will soon be his wife. When he finally reveals his past to her, she smiles! She already knows his story. Rather than hardening her heart toward him, it has completely opened her up. She sees how much he desires to rebuild his life and she wants to do it with him.

They marry in a simple ceremony, and both work to buy a small house on Sanford's mail route. When they learn June can't have children, they decide to adopt, and take on a three-year-old boy from the local orphanage. The toddler is having a much harder time finding placement than a baby would. Sanford and June want to give the boy a chance. (And this boy is Jerry Clark, who will eventually open up the archives underlying this story).

Sanford makes sure his son Jerry never suffers from a lack of friends by buying the empty lot next door to their house. He grades it flat and after winter sets in, persuades the fire company to bring a truck around. They spray enough water over the lot to form a solid ice coating. Hockey is inevitable.

Jerry is 18 when his father Sanford takes him aside and tells him the entire Wineville story. He knows despite social acceptance there will always be gossip, and he wants Jerry to hear the story from him. He tells him all about his time at the murder farm and in the burial pits with the roof pressing down on him, never knowing how long his term in the hole would be.

That night, Sanford hears odd noises and walks into Jerry's bedroom to see Jerry walking in his sleep and obviously in the throes of a nightmare. He is standing on his bed and pressing his hands up against the ceiling. Pushing with all his might. Trying in vain to lift the ceiling and somehow escape. Sanford gently wakes him before June is aroused by the sounds. He quietly explains to his son that it mattered to Sanford for his son to get a glimpse of what happened, not to share in his nightmares but to help him stand strong when people try to tear him down.

After twenty-eight years on his postal route, Sanford suffers a heart attack while on his mail route. He barely survives and must retire. With too much free time on his hands, old memories begin to run through his mind. They torment him.

June arranges a job for Sanford at a local car museum, hosting the fancy displays. It is good for Sanford to have the distraction, and he excels at the job as a popular tour host. In his free moments, it is not the scenes of wartime battle which cause him such pain, it is always the murder farm. But he has pulled himself out of that hell and created a life to be proud of. He and June remained married for 58 years.

TAKEN AT BIRTH

Stolen Babies, Hidden Lies, and My Journey to Finding Home

By Jane Blasio Revell/Baker Books

Click link to watch trailer: www.youtube.com/watch?v=ESyhEzX7WNo

For years from the 1940's through the 1960s, young pregnant women entered the front door of a clinic in a small North Georgia town. Their babies exited out the back, sold to northern couples desperate to hold a newborn in their arms. But these weren't adoptions—they were transactions. And one unethical doctor was exploiting other people's tragedies.

Jane Blasio was one of those babies. At six, she learned she was adopted. At fourteen, she first saw her birth certificate, which led her to begin piecing together details of her past. Jane undertook a decades-long personal investigation to not only discover her own

origins, but to identify and reunite other victims of the Hicks Clinic human trafficking scheme. Along the way she became an expert in black market adoption, serving as an investigator and telling her story on every major news network. ***Taken at Birth*** is the remarkable account of her tireless quest for truth, justice, and resolution.

Jane Blasio is a Hicks Baby, sold at birth and passed through The back door of a clinic in North Georgia. She has served for more than 18 years in federal law enforcement. An expert in illegal adoption, she helped unravel the mystery of the Hicks Clinic, breaking the story in 1997. She has appeared on CNN, ABC Primetime, Good Morning America, Fox News, Inside Edition, and Entertainment Tonight, as well as in the New York

Times, People, and Reader's Digest. She was the investigative lead on the recent TLC docuseries, *Taken at Birth*. Jane currently lives in Akron, Ohio, and spends as much time as she can with family and friends. www.JaneBlasio.com

People like to say it takes a lot of courage to do a book like this: I think it takes a site more than that. Jane Blasio lived a story that most of could only imagine, from being sold as an infant by a small- town doctor, to years of searching for her birth mother, a gut-wrenching ordeal. But she not only lived it, she wrote the mortal hell out of it, bringing it all to life for the reader as it poured out of her. Sometimes you have to remind yourself that this was a life lived, not one just crafted. --Rick Bragg, Pulitzer Prize winner for NYT journalism, Prof. of Writing, University of Alabama

SOLE SURVIVOR

By Holly K. Dunn and Heather Ebert

Just as she was starting her junior year of college, Holly Dunn and her boyfriend were attacked while walking along railroad tracks. After her boyfriend is murdered, Holly is stabbed, raped, and beaten nearly to death. Their assailant remained at large for two years before police realized he was a serial killer connected to many more murders in several states. In this memoir of survival and healing from a horrific true crime, Holly recounts how she survived the vicious assault, endured a long journey of healing, and ultimately found meaning and purpose through service to victims of sexual assault and other violent crimes.

On August 28, 1997, Holly Dunn and her boyfriend, Chris Maier, were strolling along a set of railroad tracks not far from the University of Kentucky in Lexington where both were students. As they were heading back to a nearby house party, a strange man emerged from the shadows brandishing a sharp, pointed weapon.

Holly and Chris offered him money, credit cards, even their car while begging the man not to hurt them. Disregarding their pleas, the stranger viciously attacked them both, tying their arms and feet and dragging them into a ditch on the side of the tracks. Holly watched helplessly as the assailant bludgeoned Chris to death with a 50-pound rock. The killer then turned to Holly, stabbing her in the neck, raping her, and beating her over the head and face with a board until she was unconscious. Leaving her for dead, the attacker fled the scene.

After a while, Holly regained consciousness and miraculously managed to walk barefoot and coated in blood to a nearby house for help. From there, Holly was rushed to the University of Kentucky Medical Center where she stayed for five days being treated for multiple cuts and gashes, a broken eye socket, and a fractured jaw. Much worse than the physical harm was the emotional and psychological devastation that Holly endured after the attack. Holly's memoir moves from a detailed account of the night she and Chris were attacked by the tracks, through her heartbreaking journey of grief and healing as she comes to terms with what happened.

For two years after the attack, Lexington police have no idea who or where Holly's attacker is. **At the story's midpoint, the assailant is revealed to be a serial killer who has murdered multiple people in several states.** Given that his victims are all discovered a short distance from train tracks, the media nicknames him the **Railroad Killer**.

His best-known alias at the time was Rafael Resendez-Ramirez, an illegal immigrant from Mexico with a mile-long rap sheet dating back to when he was 16 years old. At the height of a national manhunt, Resendez-Ramirez is added to the FBI's Ten Most Wanted list, right between Osama Bin Laden and followed shortly after by Whitey Bulger. After he is finally apprehended by a fiercely determined Texas Ranger, the killer's actual name turns out to be **Angel Maturing Resendiz**. Resendiz is brought to justice, and Holly bravely testifies against him during the punishment phase of his trial in Houston, Texas. The jury recommends the death penalty, and the notorious Railroad Killer is finally executed in 2006.

Holly's story doesn't end with Resendiz's death, however. Not long after her attacker's arrest, Holly begins speaking to various groups to tell her story, offer safety tips, train law enforcement, and much more. She also works with a local police detective for several years to establish **Holly's House** in her hometown, Evansville, Indiana. Holly's House offers a safe and nurturing space for forensic interviews, services and support for victims, and community outreach and education programs.

Her Christian faith brought her strength throughout the healing process, and she believes she was given a second chance at life for a reason. Since her ordeal, Holly has embraced every opportunity to serve others, especially those who have endured rape and other violent crimes. Holly's story is ultimately inspiring and redemptive as she demonstrates that even in the face of one's worst nightmare come true, life can still be good, meaningful, and joyous.

THE CRIME OF THE CENTURY

Richard Speck and the Murders That Shocked a Nation

By Dennis L. Breo and William J. Martin
Skyhorse

A detective cuts the police tape, and five men enter the scene of the crime, a small, boxy, two-story townhouse on the south side of Chicago. Here, some 13 days earlier, Richard Franklin Speck, a drifter from Dallas, had broken into the townhouse, which served as a dorm for six American nursing students and three Filipino exchange nurses, and savagely stabbed, strangled, and killed eight young women in a violent sexual rampage. One nurse, the tiny Corazon

Amurao, miraculously survived by hiding under a bed behind a hanging blanket. Cora's eyewitness description and a match of fingerprints left on a bedroom door had identified Speck as the killer.

Now, as the five men step around congealed blood on the floors of the upstairs bedrooms, Speck's killing fields, they vow to bring the killer to justice. Team Speck, as the prosecutors will come to be known, are led by Bill Martin, 29, the father of four, including two young daughters. Earlier this day, Martin had locked in his office safe a priceless piece of evidence – 22 pages of handwritten notes and townhouse diagrams provided by a Filipino translator who had interviewed Cora in her native Tagalog. It tells Martin exactly how Speck, who had been whiling away the hours in a seaman's hiring hall across the street from the townhouse, had carried out his barbaric attack.

Martin, charged with prosecuting Chicago's most-famous killer since Al Capone, hardens his heart and steels himself for the hard work ahead. He tells his colleagues: "If we win this case, nobody will ever remember us; if we lose it, nobody will ever forget us."

As the 14-hour days blur into months, the young prosecutor has one overriding concern—protecting the emotional and psychological health of his star witness. Only three months removed from a rural hamlet in the Philippines, Cora has survived a night of unimaginable evil and could easily repress her terrifying memories. While Speck was raping his final victim, the horrified Cora was only a few feet away, under a bunk bed, eyes closed and head pressed against the floor, furiously praying.

After the killer had disappeared into the night, she slowly loosened the bindings on her ankles and wrists, crawled out of her hiding space, walked over the dead bodies of her friends, pushed open a bedroom window, climbed onto a townhouse ledge, and screamed for 20 minutes: "They are all dead! Oh, my God, they are all dead!"

Martin knows he must protect the fragile Cora, or his case may be lost. Reporters want interviews about her story of survival and major magazines are offering to pay a lot of money for that story, which would prejudice the State's case; the hospital wants her to return to work, but she is afraid she may make mistakes; the Philippine consulate wants to control her actions, but she wants to make her own decisions. Demonstrating remarkable integrity, Cora, who comes from a very poor family, turns down all offers of paid interviews and firmly states that she wants only "to honor the memory of my friends."

In the first of many bold moves, Martin decides he must "kidnap" Cora and her mother and cousin,

who have been flown to Chicago from the Philippines by an American magazine and place them in the witness protection program under 24/7 police protection at an undisclosed location. As the months pass, Cora puts her trust in her well-chosen police bodyguards, “Jacques” and “Jeem,” as she calls Jack Wallenda and Jim Georgalas, and also in Martin, who brings his young children to splash around in a swimming pool with the Amurao clan.

Four months will pass before Martin begins to prepare Cora to testify. With pen and legal notepad before him, Martin is afraid he may blunder in his questioning and cause Cora to repress her memories. But with a Pepsi-Cola in hand (“I just drink Pepsi,” she says), Cora is composed and unflinching as she explains and diagrams how Speck moved the nurses about the townhouse bedrooms. She is determined to help Martin avenge the murder of her friends.

The painstaking preparation will pay off in April 1967, when Cora is reunited with Speck in a court of law. One veteran criminal reporter will describe her as “as a blend of steel and lace” and the “best trial witness I have ever seen.” Martin will have little need for his notes as he and Cora settle into a grooved routine in which Martin perfectly pitches a question and Cora perfectly throws back the answer. It is like a game of catch and both are throwing strikes. Before answering, Cora looks at Martin and then speaks directly to the jurors on her right. Using a scale model of the townhouse built by the FBI and figurines to represent the nurses, Cora explains and demonstrates to the astounded jurors precisely how the killer carried out his night of horrors. Asked by Martin if the killer is in the courtroom, Cora steps down from the witness chair, walks to within a foot of Speck, points at his pockmarked face and vacant stare, and declares in an unwavering voice: “This is the man!”

The jurors require only **49 minutes** to return a death sentence.

THE STRANGER SHE LOVED

By NYT Bestselling author Shanna Hogan

St. Martin's Press

Michele MacNeill lay slumped, limp and lifeless folded inside the drained bathtub. Her husband Martin—clad in a white lab coat—hovered above the tub, wailing for help.

It was late on the morning of April 11, 2007, and Michelle, a 50-year-old former beauty queen and mother of eight, was dead inside the master bathroom of her Pleasant Grove, Utah home. She had just undergone a full-face lift eight days prior. At the hospital as his wife of 30-years was pronounced dead, Dr. Martin MacNeill—a practicing physician, lawyer, and Mormon bishop—wept dramatically. Michele's death was quickly ruled natural by the medical examiner due to an unknown heart arrhythmia. Dr. MacNeill appeared every bit the grieving widower.

thing about Dr. MacNeill was as it seemed. It would take six long years and the unrelenting dedication of Michele's children to solve the mystery of her death, exposing a complex web of lies, betrayal and murder. Beneath the carefully concocted façade of a family man, Dr. MacNeill was a cunning manipulator with a disturbing double identity. He used his position as a doctor to gain access to other women and used his title as attorney to get around the law.

The unraveling of Dr. MacNeill's lies began soon after Michele's surgery, which he had persuaded his wife to undergo. As she recovered, a disturbingly groggy Michele turned to her older daughter Alexis and said, "In case anything happens to me, make sure it was not your dad. "Michele had suspected her husband of an affair and believed he intended to kill her.

Days after his wife's funeral, Dr. MacNeill hired his mistress, Gypsy Willis, to be the live-in nanny—much to the chagrin of his children. Both Dr. MacNeill and Gypsy neglected the MacNeill children and eventually lost custody. In the summer of 2007, they abandoned his teenage, adopted daughter in her homeland of the Ukraine. He then used the girl's Social Security number to give his mistress a new identity and conceal his own massive debts.

As Dr. MacNeill's children began to suspect their father of murder, they conducted their own investigations, revealing his multiple affairs, a criminal record for forgery and falsified transcripts proving he was never qualified as a doctor.

Toxicology tests later proved Michele was dosed with a combination of drugs that would have left her helpless to defend for her herself. In 2013, Dr. Martin MacNeill was convicted of murdering his wife by pressing her to get plastic surgery, drugging her and drowning her in the bathtub. As the prosecutor would say in court, "it was an almost perfect murder." He later committed suicide in prison. See: www.ShannaHogan.com

DANCING WITH DEATH

The True Story of a Glamorous Showgirl, Her Wealthy Husband,
and a Horrifying Murder

By Shanna Hogan St. Martin's Press/Diversion

October 23, 2004. The crime scene is gruesome. On the outskirts of the Phoenix desert detectives discover a headless, limbless torso entombed inside a large plastic box, stewing in blood and grim. Matching a set of car keys found with the victim, detectives quickly identify the torso in the box as Jay Michael Orbin.

Flash back to 20 years prior where a young Jay Orbin is sipping a beer at a strip club. Jay is a budding art dealer who travels two weeks a month on business trips. He is also a playboy with an affinity for strippers. When a beguiling blonde stripper named Marjorie Marqui sensually cavorts on stage, Jay falls head over heels. After weeks of seducing her with money and gifts they begin dating and Marjorie even moves to his house. After one embarrassing sexual encounter, Marjorie

leaves Jay and returns to her home state of Florida.

Eight years later, Jay has not forgotten about Marjorie and stills refers to her as the “love of his life.” Then, in 1995, on a business trip to Las Vegas, Jay sees Marjorie’s face on a billboard advertising a topless dance show. Jay is in awe. He had been searching for her for years. He finds her number in the phone book and calls her. They meet for drinks where Marjorie tells Jay about her life over the past 10 years. After leaving Phoenix, Marjorie returned to her home state of Florida and hooked up with a multi-millionaire playboy named Michael J. Peter, who is known throughout Florida as the “strip club king.” While with Michael, Marjorie starred in his burlesque-style dance troupe called the “Platinum Dolls.” Michael and Marjorie had a romantic relationship, and she was involved in many of his endeavors, starring in his movies and music videos including a cameo in the Motley Cru video “Girls, Girls, Girls.” Marjorie was even featured with Michael in an episode of Lifestyles of the Rich and Famous, about his life of opulence. When speaking with Jay, Marjorie does leave out many mysterious details about her past, which would be revealed later in the story.

Jay and Marjorie rekindle their relationship and he quickly proposes marriage. Marjorie, however, turns him down. But when Marjorie tells him of her one regret—that she is infertile and can never be a mom—they make a deal. If Marjorie marries him, Jay promised to pay for fertility treatments. The couple agrees to an arrangement where if Marjorie is not pregnant in two years she will leave. They elope in Vegas and Marjorie moves with him to Phoenix, soon giving birth to a son named Noah. While Jay’s family and friends have mixed opinions about Marjorie, their relationship seems to work and over the next eight years they live together as a seemingly happy family. Then, on September 8, 2004, Jay’s 45th birthday, he fails to return home from a business trip. Over the next few weeks, the family becomes increasingly concerned. Jay’s older brother Jake comes down from San Diego to search for his brother. The family, in particular Jake, will be instrumental in uncovering Marjorie’s mysterious past. While Marjorie tells the family that Jay is expected any day, Jake convinces Marjorie to report him missing. With missing persons detectives Marjorie seems unconcerned and evasive. It’s clear to them that she’s hiding something.

During one phone call with Detective Jan Butcher, Marjorie refuses to take a lie detector test. In the background a male voice pipes up in the background telling Marjorie not to cooperate. Suspicious, Detective Butcher orders a search warrant on the house and discovers that Marjorie has been having an affair with a 60-year-old body builder named Larry Weisberg, who attacks SWAT officers and is Tasered inside Marjorie’s house. That night Jay’s brother Jake goes to the house to check on Noah and hears as Marjorie tells detectives a shocking secret—she and Jay are not actually married. They had divorced eight years prior because Marjorie had a tax lien in her name. No one, not even Jay’s parents, knew of the divorce. Because Marjorie was not Jay’s wife, she would not be entitled to his assets in a divorce. She is however, the main beneficiary on his millionaire dollar life insurance payouts.

Over the next month, Jake hires a private detective to learn more about Marjorie. He soon discovers that Marjorie is not who she has claimed to be. Marjorie had been married and divorced seven times and has a petty criminal record and links to mob ties through her ex, Michael J. Peter. The family later learns that Marjorie had been suspected of egregious acts at her son’s karate studio, including harassing other parents. She had even been dyeing her eight-year-old son’s hair blonde to match hers since he was just a few months old. Then, on October 23, 2004, more than a month after he went missing, a dismembered chunk of Jay’s torso is discovered in the Phoenix desert. Homicide detectives quickly put together a case against Marjorie and her boyfriend Larry Weisberg. After discovering video of Marjorie buying the Rubbermaid tub the torso was discovered in, an arrest is made. No evidence is ever found on Larry Weisberg and he is later offered immunity. On September 21, 2009, Marjorie is convicted of first degree murder and sentenced to life without the possibility of parole.

A CHECKLIST FOR MURDER

By Anthony Flacco

Penguin Random House/Diversion Books

Screenplay available

Stark reality and rampant paranoia blend and blur in this deep psychological thriller. The story opens as 18-year-old Natasha Peernock is found lying half dead in the wreckage of a burning car, only a few feet from her mother's body. Both women have been severely beaten with a tire iron, the only difference being that Natasha barely survives. In the hospital, we see from her POV while she tells a tale of being kidnapped by her own father, Robert Peernock, who blindfolded, bound, and tortured her for nearly 11 hours while Daddy waited for Mommy to come home. Natasha says that he then beat her mother to death and loaded both of them into the car and rigged it to crash.

Robert Peernock produces an alibi *and* a compelling alternate theory of this crime—he is a computer programmer working for the State of California, who claims to have discovered government corruption in the awarding of state contracts. He has been a victim of constant harassment because of his whistle-blowing activities. As a point of proven fact, Peernock has already won numerous lawsuits against the organizations he has targeted, and he claims to be on the verge of releasing a detailed book that traces government corruption from office to office, all the way up to the Governor of State of California.

He protests that he is being framed. His daughter was drugged and brainwashed, and then the murder was set up to implicate him—all in order to destroy his credibility. His opponents would then be safe from the effects of his book, even if he ever got it published.

Police reject Robert Peernock's alibi. They want him to come in for another interview. He flees town. Even so, he continues to communicate with police, via his attorney. He reveals that he is afraid to return, because the police work for the same forces that Peernock is trying to expose. He is sure that he will become a "jailhouse suicide" if he surrenders. So, in a desperate effort to hide from them, he gets plastic surgery in Las Vegas and returns to L.A. in secret, where his girlfriend helps him avoid capture for months. He fails to assist in his daughter's recovery or attend his wife's funeral.

Eventually, Detective Steve Fisk puts in enough overtime to track him down and Assistant District Attorney Craig Richman begins to look for holes in Peernock's alibi. But... when civil attorney Victoria Doom enters the case *pro bono* to help shattered Natasha get put her life back together, she discovers a host of contrasting details and helps to prove that Peernock has committed a near-perfect murder. The question regards motive. Before the crimes, he had already been granted his wife's permission for a divorce—and even after splitting their estate, they would both be very well off. So why would he attack his own daughter? Natasha herself talked about how she used to be the apple of her father's eye. Young Natasha suffers violent recurring nightmares about the crime—at the same time, her jailed father suffers from nightmares about being set up and convicted for murder. It is only because of Victoria Doom's after-hours passion for this case that the truth finally comes out: Robert Peernock indeed would have committed the perfect murder if only he had not been so obsessive about keeping his detailed checklist for murder.

Victoria Doom reveals that Peernock's fight against the state drove his paranoia out of control, until he became convinced that both his ex-wife and his daughter had been enlisted in the state's clandestine struggle to silence him. After a fierce murder trial filled with screaming outbursts—and a bound and gagged defendant in the courtroom—Robert Peernock's jury finds him guilty of 1st Degree Murder along with a host of accompanying crimes.

Later, while Doom helps Natasha to quietly get on with her life in an out-of-state location, word comes from the police that Peernock is in jail trying to hire a killer to go after his daughter and finish the job on her. He is working at this task with the relentless patience of an obsessive madman. The story ends with Peernock in his solitary cell, hand drawing the new home page for his website: It shows a picture of him bound and gagged in court during his trial. The caption cries: "Innocent whistle-blower!" For the text underneath, he writes: "This is the story of an innocent man..." and smiles as he reads back over his handiwork. **UPDATE: ROBERT PEERNOCK DIED IN PRISON FROM COVID IN APRIL, 2021**

MY STOLEN SON

The Nick Markowitz Story

By Susan Markowitz

Penguin Random House

*** Starred Review from Publishers Weekly**

This poignant memoir tells the painful story of a brutal slaying that captured national attention when it became the basis of the 2007 drama *Alpha Dog*. In the summer of 2000, Susan Markowitz's 15-year-old son, Nicholas, was kidnapped and murdered by a local drug dealer in revenge for his brother's debts. Nicholas's death, the ensuing trials of his killers, and the international manhunt for a fourth suspect nearly tore his family apart and sent his mother on a decade-long quest for justice and sanity. Markowitz writes with candor about her grief-induced alcoholism and suicide attempts as well as the troubles that shook her family's foundation long before Nicholas's death. Her unflinching honesty makes this a deeply powerful story that will move fans of the film and anyone grieving a loved one's death by homicide or suicide.

On the morning of August 6, 2000, fifteen-year-old Nicholas Markowitz - knowing he was in trouble with his parents - snuck out of the house. He never came home. One week later, authorities arrived on Susan's doorstep with devastating news: her son had been found dead. Days earlier, a 20-year-old drug dealer, Jesse James Hollywood, and 3 of his accomplices, had kidnapped the teenager in broad daylight as revenge for a drug-related debt owed by Nick's half-brother. They later murdered the innocent boy in cold blood and buried him in a shallow grave. Hollywood fled to Brazil as a fugitive and became the youngest man ever on the FBI's top ten "Most Wanted" list. It would be nearly a decade before he was brought to justice.

Initially, Susan had thought only about getting justice for her son. But along the way, she rediscovered her own will to live, and promised to honor her beloved son's memory by making sure something positive came from the pain he had to endure. **MY STOLEN SON** is the gripping account of one mother's relentless 9-year fight to bring her son's killer to justice, and to rebuild a family shattered by an unconscionable crime.

MY BROTHER'S KEEPER

By Chris Blackwood

Wild Blue Press

On the night of Gary Kergan's murder, he was a confidant, charismatic 40-year-old on the verge of a break-through business deal for himself and younger brother Ted. He had called Ted with the news that the funding they sought for their franchise partnership was granted; the brothers were soon going to own dozens of franchise locations. This was the level of success they had chased together for years. On the phone call, Gary told Ted he was on his way over, so the elated pair could celebrate this great news together. Ted settled on his sofa and waited for the sounds of his brother's steps on the front porch. For so many years, the brothers had functioned as a duo in business ventures, beginning with mutual paper routes as teenagers. Ted was four years younger and looked up to his brother, while Gary, a big man at six feet, five inches tall, had always been Ted's protector. Everyone who knew the Kergan brothers realized they had a special closeness, even if people were unaware it was built on escaping the poverty of their childhoods together. When they spoke on the phone, they used a special kind of coded language that often-made sense only to them. Ted fell asleep waiting. Gary never arrived.

It would later be learned the celebratory mood had caused Gary's good judgment to fail him. He drove to a North Baton Rouge strip bar to meet up with Leila Mulla, a young dancer there. They later left the bar together and were seen entering her apartment just blocks away. But Leila already had a boyfriend. He was hiding inside the apartment with a heavy blunt instrument in his hand, waiting for her to bring home a victim with a fat wallet. And with that, Gary disappeared into the memories of those who loved him.

The following day, his late-model Eldorado turned up in suburban New Orleans, an hour's drive east of the dancer's apartment. When police popped open the trunk, they found it soaked with a large pool of blood, evidence of such great blood loss that the victim's survival was unlikely. As evidence in a murder case, that much blood legally served as a stand-in for the body itself as proof of death. The authorities called it a "body of blood."

Ted mobilized a search for his brother and quickly came across the name of Leila Mulla, a 19-year-old Kent, Ohio high school honor student and daughter of a prominent Syrian physician. Leila had run away from drug rehab and ended up homeless in New Orleans. There she had met Ronald Dunnagan, a magician and drifter in his thirties.

Police investigated her and her boyfriend, but no solid evidence was found. And yet Ted did not doubt their guilt.

Leila chronicled her sex trade tricks and her earnings in several diaries, and one of them included this damning entry: "Hit Gary next time," and a reference to the fact that Gary owned a chain of South Louisiana Sonic restaurants. Ted didn't doubt their guilt. The question was one of proof.

After being extradited to Baton Rouge, Leila and Ron spent several months in East Baton Rouge Parish Prison. When the investigation failed to turn up Gary's body, the grifter pair was released and went their separate ways.

But Ted Kergan remains convinced the couple was guilty and refused to hold a memorial service for his brother until he found the truth. This began his decades-long investigation and pursuit of his brother's killers. After years of private detective work, DNA science finally caught up with the paltry evidence in Gary's death. The Baton Rouge police department re-opened the case and established new DNA evidence which triggered Leila's and Ron's arrest in December of 2012. It was only brother Ted's persistence that brought about their conviction. The killers would have done the perfect murder, if not for the bond between the Kergan brothers. Ted Kergan was never going to walk away from this.

The twists and turns of Ted Kergan's investigation read like a crime novel but reflect one man's quiet determination to bring justice for a brother who had always been his protector in life. He repeatedly comes oh-so-close to bringing Leila and Ron to justice, only to see their experienced criminal attitudes allow them to bluff their way past the law. Sometimes it seems as if the stars are lined up to help them – and the years tick by. This real-life drama is a compelling tale driven by the victim's brother who obsessively seeks the truth, spending a fortune in the process. Even though Gary's body was never recovered, the body of blood in his car was enough for the conviction. Ted lived to see the killers face the consequences of their murderous acts, and to know they were both aware of his role in chasing them down after a manhunt spanning three decades. www.mybrotherskeeperbook.com

DADDY'S LITTLE SECRET

By Denise Wallace

WildBlue Press

Screenplay Available

Denise Wallace had spent years hiding deadly secrets about her enigmatic father, Wesley Wallace. Wes was a trusted security guard at the Ritz Carlton Palm Beach, who was supposed to protect those who found themselves in his care. But a closer look into his brutal murder revealed a split personality -- one that his daughter may have seen.

The detectives persuaded Denise to assist them in the capture of her father's killer by taking them on a series of outings that would be far from away from the glitz of Palm Beach. The trail would lead them to the murky streets of Dixie Highway, where it was discovered that Wes spent much of his free time. It was there that Wes picked up Travis Jones, an eighteen-year-old homeless man who was possibly addicted to crack cocaine. Wes had lured Travis into his car that night with the promise of money in exchange for homosexual favors, but never planned to make good on the deal.

Instead, he had tried to force Travis to be a participant in a violent sex game where Daddy was going to get what he wanted -- even if it killed him. A terrorized Travis had then engaged in a frenzied attempt to cover up the crime. The detectives would find an overflowing bathtub filled with bleach-smelling water, bloody sheets, and a gold lamp base along with items missing from Wes' apartment.

But where was the killer? Travis had gotten on a bus and left town until the one friend he talked about the murder decided to turn on him. The details of the crime would be recanted by Travis himself on the stand, which would cause Denise to remember something that had happened long ago. Her father had a history of collecting sex slaves. Would telling his secret to the prosecutor be enough to save Travis from the death penalty? Even from the grave Wes' ominous weight could still be felt by his daughter and the killer.

DARK HEART

A True Story of Sex, Manipulation, and Murder

By Kevin Flynn & Rebecca Lavoie

Penguin Random House

In this tale of *The Loft* meets *Fifty Shades of Grey*, a beautiful co- ed goes missing after being lured to the apartment of a couple seeking a partner for a kinky threesome. Was it a sex act gone wrong or something more sinister?

Though 19-year-old **Lizzi Marriott** said she'd be home before midnight, the marine biology student never arrived. She'd said she was on her way to visit her new friends, Kat and Seth. What she didn't know was the real reason the couple invited her over.

To the outside world, 18-year-old **Kat McDonough** and 30-year-old **Seth Mazzaglia** were a normal couple who enjoyed acting, video games, and Dungeons and Dragons. Seth convinced the impressionable Kat their role-playing alter egos were real, spirits from their "past lives" who could control their present. Seth cautioned that he was pursued by an otherworldly "Darkness," a power that would overtake him unless Kat did what he said. From there, Seth led the much-younger woman into the world of extreme bondage, knife play, masochism, threesomes, and erotic asphyxiation.

Seth turned Kat literally into his sexual slave, demanding all her master's needs be unquestionably met. When Kat left for two weeks to work as a summer camp counselor, he demanded she find him a "replacement" to satisfy his pleasures. When she failed, the master inflicted punishment on his slave: days of bondage and rough sex. He said the punishment would continue until she found him a friend who would "die by orgasm" in front of her.

When Lizzi Marriott vanished, police traced her last known location to Seth and Kat's apartment. After hours of interrogation, Seth confessed Lizzi died during a BDSM session in which he accidentally choked her with a rope. He disposed of her naked body in a swift river which dumped into the Atlantic Ocean. Later, in an effort to free her arrested boyfriend, Kat told defense lawyers the girl accidentally died of smothering when she sat on Lizzi's face. Authorities were never able to recover Lizzi's body, losing the most important piece of evidence in the case. Prosecutors desperately needed Kat's eyewitness account to convict Seth. After Kat was arrested on witness tampering charges, they cut a deal for her testimony.

In court, Kat told what really happened that night. After playing a flirty game of strip poker, Lizzi rebuffed Seth's advances and an invitation to join the couple in bed. The master, unaccustomed to hearing "no" in his own bedroom, strangled Lizzi from behind with a rope used for bondage. Under cover of darkness, both Seth and Kat dumped Lizzi's body into the river and abandoned her car. Kat, however, was a troublesome witness. She had lied many times to protect Seth – lies the defense used against her. At trial, they confronted her with her beliefs in spirits and dragons and her own kinky predilections. Defense attorneys accused Kat of killing Lizzi and setting Seth up to take the fall. It would be up to a jury to decide whom they believed most.

DEADLY VOWS: **The True Story of a Zealous Preacher, a Polygamous Union and a Savage Murder**

By Leif M. Wright
New Horizon Press

A lone Palo Verde tree stands out defiantly against the Arizona desert, miles from anything else. Well, except for the strange pile of volcanic stones under it. What a jogger discovers underneath those stones—the violently desecrated corpse of a woman who had been brutally stabbed, then dismembered and disfigured—leads to one of the strangest cases detectives and medical examiners have ever seen.

In beautiful San Diego, handsome, engaging and popular preacher Sean Goff is telling everyone who will listen that his second wife, Joy—the one who had been living with him, his first wife and the trio's three kids—simply tired of domestic life and pulled up roots to wander around Europe with an old flame, leaving her children and everything else behind.

Joy's friends keep pushing Sean for answers, until they start receiving emails from Joy telling them to chill out and leave her alone. Except the emails don't really sound like the Joy they knew. And leaving her kids behind definitely doesn't sound like her. So, they call police, who send a missing persons detective to talk to Sean.

Back in Arizona, medical examiners unravel the horrific crime that had been perpetrated on the woman found underneath the tree: she had been stabbed at least a dozen times in the chest—at some point so violently that her bones reveal injuries they've never seen before. Her fingertips have been sawed off and disposed of somewhere else. Her teeth have been sawed completely from her head. Her face has been bashed in. Some killer knew exactly what police would be looking for and had gone out of his way to make sure they wouldn't find it.

Deadly Vows follows Sean Goff's transformation from wunderkind preacher to cold-blooded manipulator and killer from the perspective of the man who saw it all, his best friend.

Deadly Vows is visceral, visually oriented and captivating for both readers and would be for viewers on film — from the cinematic opening page to the gripping courtroom drama that closes it. Its themes of fringe religion, polygamy and the transformation of a man and his wives demand to be displayed on-screen as both a spectacle and a cautionary tale.

NOTES ON A KILLING

By Kevin Flynn & Rebecca Lavoie

Penguin Random House

Sandra Merritt was surprised to get a phone call at work from Edith “Pen” Meyer, her AA confidant. Pen urged Sandy to resume her affair with a married man, reversing the advice she’d given for months. After the call, Pen vanished. Investigators found Pen’s lakefront home empty except for her beloved dog, Fluff.

Sandy and Pen’s boyfriend suspected Ken Carpenter in the disappearance. When Sandy had called off the yearlong affair with the married man - filing a restraining order against him - Carpenter openly blamed her supportive friend Pen for coming between them. During the search, an anonymous caller told police Pen had flown to the islands with a secret lover. Investigators recognized the voice on the phone as Carpenter’s. The caller also suggested detectives check out the pay phone at the local country store. There, investigators discovered a key to Pen’s safe deposit box fastened to the phone with a piece of range duct tape.

Already suspicious of Carpenter, police asked Sandy to record phone calls with her ex-lover. On the tape, Carpenter told Sandy he had “spoken to God” and what happened to Pen would be revealed in a few days.

When police searched Carpenter’s home, they came across a fire pit smoldering in the backyard. Inside the ashes was a pair of eyeglasses missing from Pen’s home, keys to her house and PO Box, and more than a dozen human bone fragments. They also found a roll of orange duct tape, a garrote, and a .22 rifle wrapped in a raincoat. Under a chair, police discovered a notebook with plans for a murder and scripts for Pen to read over the phone to Sandy. After his arrest, Sandy received a contract in the mail turning over all of Pen’s property to her. Pen’s signature had been forged on the paper.

Pen Meyer’s murder was hardly an open-and-shut case for prosecutor Kirsten Wilson. With no usable DNA and a handful of bone fragments, they couldn’t even get a death certificate, let alone a forensic cause of death. Investigators monitored Carpenter’s jailhouse calls with his wife, Cynthia “Harv” Harvey, for clues.

Carpenter consistently maintained his innocence. A nurse herself, Harv grilled him on why so few bones were in the fire pit. Carpenter eventually drew a map to a hollowed stump in their yard. There, Harv found burnt pieces of skull and Pen’s distinctive jewelry. Loyalties torn, Harv called the police. Carpenter doubled down. He claimed a stranger named “Phil Waters” had approached him after the restraining order and said he could take care of his “problem.” Carpenter said he left Pen alone with Phil at his house, and when he returned, the woman was gone, and the fire was burning in his backyard. To prove his claim, he led Harv to more hidden evidence: a letter in Pen’s handwriting talking about the wonderful day they’d spent together – the day Pen disappeared. Police believed Carpenter forced Pen to write it at gunpoint.

Meanwhile, a yearlong effort to reconstruct the skeleton from the various pieces was underway in a forensic pathologist’s lab in neighboring Maine.

When Carpenter’s public defender withdrew because of a conflict, famed defense attorney Mark Sisti took the case. Sisti, whose reputation had stemmed from his defense of Pamela Smart, excelled at raising doubt about how and where the killing could have happened, or whether the charred remains were even Pen Meyer’s. In the courtroom climax, the forensic anthropologist testified she had discovered a bullet hole in the reconstructed skull, answering once and for all how Pen was murdered. After a rousing closing argument re-written from scratch on the penultimate night of the trial, the jury convicted Ken Carpenter in just two hours. For more see: www.AuthorKevinFlynn.com

THE GIRL IN THE LEAVES

By Robert Scott with the cooperation of Sarah & Larry Maynard
Penguin Random House

Sarah and Kody Maynard were just typical kids growing up in idyllic Apple Valley, Ohio. Kody, at the age of 11, was already a superb baseball pitcher, and Sarah was a pretty, happy-go-lucky cheerleader at the age of 13. On November 10, 2010, however, their whole world was overturned in an instant.

As soon as Sarah and Kody walked home from school and entered the front door of their home, they noticed blood on the living room carpet. Suddenly a man came running down the hallway to grab them. Sarah managed to slip by him and dashed to her bedroom, while Kody turned to run out the front door. Before Sarah could call the police, the knife-wielding man grabbed her and tied her up.

Taken to the man's residence, Sarah was forced into his basement and tied upon a bed of leaves in a dark corner. In fact, her assailant was absolutely fixated with trees and leaves. Every room in his house was stuffed with dry leaves.

Meanwhile, Sarah's father, Larry Maynard, was beside himself with worry, not knowing what had happened to his daughter, son Kody or ex-wife Tina. Many law enforcement agencies became involved, including the FBI, but more than any other,

Sarah's fate now depended upon Knox County Sheriff David Barber.

In a race against time, Knox County Sheriff's Office detectives uncovered one vital clue after another about the crime and who might have kidnapped Sarah. And all the while, shackled to a bed of leaves, Sarah survived on one bowl of cold cereal, playing a cat and mouse game of wills with her captor. By now she was certain that her assailant had killed Kody and her mother, and she also believed that she would be next once he tired of her.

Suddenly on November 14, 2010, a SWAT team burst into the man's house and arrested him. Then to their astonishment, they found Sarah alive in a dark corner of the basement, tied to a bed of leaves.

Unfortunately for Tina, Kody and Tina's friend, Stephanie Sprang, Sarah was right about their demise. The perpetrator, 30-year-old Matthew Hoffman of Mount Vernon, Ohio, had killed them and stuffed their bodies into the trunk of a hollow tree. On the one-year anniversary memorial service for Kody, Tina and Stephanie, Sarah spotted Sheriff Barber in the crowd. She well knew who had saved her, and in an exuberance of gratitude, Sarah ran up and gave him a huge hug. This a story of Sarah's courage, Larry Maynard's anguish and the tireless work by the detectives of Knox County in saving Sarah. Both Sarah and Larry Maynard have been on the TODAY show.

LEGALLY DEAD

A Father and Son Bound by Murder

By Kevin Flynn & Rebecca Lavoie
Penguin Random House

On March 11, 1996, Vicki Bader found an unpleasant delivery in her mailbox - a pipe bomb. It was the latest in a series of threats against the New Hampshire woman and mother of three. Vicki's tires had been slashed, she'd received harassing phone calls, and someone had killed her pet birds by roasting them alive in her oven. Police focused on Vicki's relationship with her ex-husband, a narcissistic attorney named Seth Bader. As the custody battle over their three sons dragged on, Bader enjoyed putting the screws to Vicki. His intimidation was so overwhelming, a psychologically weakened Vicki repeatedly attempted suicide.

Each time she recovered, Bader would push her harder, unmercifully, driving her to the brink. Bader was living in a mansion, using all his legal tricks to keep the children away from their mother. Their oldest boy, 13-year-old Joey, lived like a virtual slave in his house—cooking, cleaning, and caring for his brothers while Bader romanced his sexy new girlfriend, Mary Jean Martin. He lavished Mary Jean with expensive gifts, but it was never enough to secure her love. The money owed to his ex-wife became a wedge in their tumultuous relationship.

In August 1996, Vicki Bader vanished. Seth Bader said their last meeting was an uneventful drop off of their three-year-old son at his house. No one knew where she went afterward. Nearly a year later, police would be led to a body in the deep woods of Maine. Investigators would discover Vicki was murdered by a motley group of thugs organized by Seth Bader. The conspiracy included a pool shark, a wannabe gangster, a gold-digging siren, and—most disturbing of all—the Bader's own son.

Did Seth Bader try to drive Vicki to suicide, then scheme to kill her himself? Or was the lawyer a patsy for a hungry group of con-artists who smelled a big payday? The answers are revealed in *Legally Dead*, the latest compelling true crime story from authors Kevin Flynn and Rebecca Lavoie. This tale of depravity and selfish scheming is one that you will not soon forget.

LOVE LIES

By Amanda Lamb

Penguin Random House

Love Lies would translate perfectly from the page to the screen. It has all the elements of a real-life thriller. Nancy and Brad Cooper were Canadians who had discovered the American dream in North Carolina. It was a place where they would raise their two daughters, make new friends and spend their time jogging on picturesque trails. That is *until Nancy disappeared*.

Hundreds searched for her. Finally, a man walking his dog found Nancy facedown, partially clothed in an undeveloped subdivision three miles from her home. Her handsome husband, Brad, said she went jogging and never returned. But in the days and weeks following the discovery of Nancy's body came startling discoveries about the couple's crumbling marriage.

Despite Nancy's reputation as a saucy, strong-willed, gutsy woman, friends and family said Brad had been controlling Nancy's life—cutting her off from money, friends and relatives. It was obvious they were headed for divorce, but the couple had many dark secrets, as did their friends, that were yet to be uncovered—infidelities, alcohol-infused arguments, and betrayals.

Brad Cooper was arrested for his wife's murder—but the investigation didn't end there. Police continued to search for the smoking gun, the one piece of incontrovertible evidence that would seal his fate. They found it in the form of a Google Map search of the site where Nancy's body was dumped. Prosecutors say Brad performed the search on his computer at work 12 hours before his wife disappeared.

After a contentious 10-week trial, Brad Cooper was convicted of killing Nancy. But the controversy over his guilt still lingered. Some believed that he was railroaded by overzealous police and prosecutors in what was a largely circumstantial case. Ultimately, the North Carolina Court of Appeals overturned his conviction ruling the trial court judge had made several mistakes. But there would not be another trial—Brad cut a deal with the state. He admitted to second degree murder in return for a shorter sentence. He is scheduled to be released from prison in 2020.

Love Lies would be a perfect vehicle for film because it exposes the subtleties of domestic abuse that we can't see against the backdrop of an alleged suburban paradise that turns out to be anything but heavenly.

DEADLY DOSE

The Untold Story of a Homicide Investigator's Crusade for Truth and Justice

By Amanda Lamb
Penguin Random House

Ann Miller wasn't the kind of woman anyone would suspect of being a killer, anyone *except* veteran homicide detective Chris Morgan.

When pediatric AIDS researcher Eric Miller died of an unknown illness at the hospital in Raleigh, North Carolina, his grieving wife came to the police station to give a statement. But almost immediately, Morgan saw something unnerving in the mousy, demure woman who appeared to everyone else to be a victim.

Deadly Dose is an excellent vehicle for film because it documents the investigation of one of the few sociopathic female killers of our times. Ann was a scientist, a mother, a churchgoing woman, not someone who schemed and plotted the demise of her kind and brilliant husband. In the tradition of some of the most famous female killers in history, she used arsenic to take her husband's life.

The main character for the film would be Chris Morgan, the larger-than-life tough-talking cop who refuses to rest until he sees Ann behind bars. For four years, he pursues her as she leaves Raleigh and continues on with her life. He soon discovers that behind the façade, she isn't at all who she pretended to be.

Ann had a series of lovers. One man in particular she called upon to help with her husband's murder. When he fell down on the job, she decided to finish it herself. But the lover couldn't take the heat of the police moving in on him, trying to get him to talk and ended his own life.

A film version of *Deadly Dose* as told through the eyes of investigator Morgan would have viewers on the edge of their seats, and husbands constantly looking over their shoulders...

OUR LITTLE SECRET

The True Story of a Teenage Killer and the Silence of a Small New England Town

By Kevin Flynn and Rebecca Lavoie
Penguin Random House

Just as “Gone Baby Gone” made audiences question the difference between the law and the right thing to do, so will **Our Little Secret**. This true story will have everyone asking himself or herself, “What would I do?” If you knew your friend killed somebody, would you keep it a secret? What if you thought the victim deserved to die?

Our Little Secret explores a 20-year-old New Hampshire cold case. In 1985, Danny Paquette is shot square in the heart by a stray bullet from the woods 300 yards away. Although Danny’s sexual conquests have made him the enemy of many husbands, police rule his death an accident. They don’t believe anyone could make that precise of a shot.

Danny’s in-laws are not sad to see him die. His ex-wife had fled to Alaska to get away from him. His adopted daughter Melanie, whom he had sexually abused, is secretly living with relatives in another town. Her aunt is a homicide prosecutor. Danny’s brother, Victor, is a profane biker who lives outside the law. Ironically, he’s the one who pushes police to keep the case alive. Victor thinks the bullet that killed Danny might have been meant for him. Steve Agrafiotis was a rookie cop on the murder case, doing grunt work for investigators. In 2004, he is now the police chief and re-opens the case. He hires an 80-year-old civilian retiree to dive into the file. They focus on a then- 17-year-old boy named Eric Windhurst, who had been Melanie Paquette’s alibi. The kid was a crackerjack shot. An anonymous letter in the 90s accused Windhurst, but no one in his hometown would talk to cops.

Detectives fly across country to confront Melanie. She tells police Windhurst shot her father because Danny was about to learn where she was living. She feared he would come and rape her again. Windhurst agrees to kill Danny in order to protect Melanie.

Windhurst’s actions are an open secret in town. Everyone knows; no one turns him in. They believe it was a justified killing. Authorities however find that grown-up Windhurst is a decent man haunted by his deadly action. As the case heads to trial, attorneys think no jury in the world will convict a man who killed a child molester. But then, one final twist. Prosecutors learn that Windhurst’s reasons for killing Danny Paquette have nothing to do with Melanie...

Our Little Secret is an unforgettable true morality play. There are no white hats/black hats. The victim is unsympathetic; the killer is righteous; the damsel in distress is manipulative.

WICKED INTENTIONS

The Sheila LaBarre Murders

By Kevin Flynn

New Horizon Press; St. Martin's Press

In the vein of “Monster” and “Zodiac” comes **Wicked Intentions**, the true story of a beautiful seductress who lured men to her secluded farm, then murdered them and incinerated their bodies. As **Wicked Intentions** opens, two police officers arrive at a farmhouse in the woods at dusk. They’re doing a well-being check on Kenny Countie, a man whose last known address was this farm. The home is deserted but they discover two fires actively burning in barrels. When they approach, they discover a human bone covered in burnt flesh.

Wicked Intentions follows the exploits of Sheila LaBarre, who spent years using her sexuality to allure men, and her anger to battle anyone who crossed her. Her home is filled with her “children,” hundreds of free-range rabbits. As police search her blood-splattered home and the 115 acres of pasture surrounding it, LaBarre eludes detectives. While

on the run (with three rabbits in tow), she charms and manipulates people into doing her bidding, giving her shelter, and proclaiming her innocence to the police and media.

Wicked Intentions is also the tale of a reporter obsessed by a story that should catapult him into the national spotlight. As in “Capote,” the reporter transforms from a mild-mannered, disinterested writer to an aggressive, take-no-prisoners journalist who is willing to cross lines in order to get the story, even do a killer’s bidding. As police and the media uncover the details of LaBarre’s past, they learn that many men had cycled through the farm in the past few years; none of them are accounted for. Flashbacks illustrate how Sheila conned the farm out of an elderly widow chiropractor, and about the many men who lived on the farm with her. Sheila would troll homeless shelters and telephone chat lines looking for men who were meek and easily led.

They were all beaten and battered by Sheila; virtual captives on the isolated farm. LaBarre is eventually captured and her attorneys mount an insanity defense. To the horror of all, it seems Kenny Countie isn’t the only man she killed, dismembered, and incinerated on her farm. To this day, authorities cannot say just how many are out there.

Wicked Intentions is a gripping true crime story that transcends the genre. Part murder mystery, part psychological study, its protagonist, a female serial killer, offers an actress an eat-the-furniture role that also has real pathos. Equally suitable as a MOW or a feature film, **Wicked Intentions** stands apart from other black widow tales.

AN UNFINISHED CANVAS

A True Story of Love, Family, and Murder in Nashville

By Michael Glasgow and Phyllis Gobbell
Penguin Random House

The electrifying true-crime thriller, *An Unfinished Canvas*, brilliantly captures a unique cast of characters. Janet March, the attractive young wife of corporate lawyer Perry March, had it all: two children she adored, a flourishing career as an artist, and a dream house she had designed. What no one knew was that her husband, attorney to the rich and powerful, led a destructive double life of secrets and lies. The night before she was scheduled to meet with a divorce lawyer, Janet simply vanished. Perry maintained that they argued, and Janet drove away, promising to return for their son's sixth birthday. But no one ever saw or heard from Janet March again.

Janet and Perry March are rising stars in Nashville, a city in the New South that is rising, as well. Larry Levine, an intimidating attorney, and his wife Carolyn will stop at nothing – even a secret mission in Mexico to retrieve their grandchildren– in the quest to find justice for their daughter. Perry's father, Arthur March, lures Perry to Mexico to begin a new life, but in the tradition of the best Shakespearean dramas, father turns against son, exposing their conspiracy to murder Janet's parents. Inmate Nathaniel Farris is a street-smart kid who cons the arrogant Perry March, working with police and the D.A. to expose a plot against Larry and Carolyn Levine.

The book chronicles the bizarre events on the night Janet March was last seen and during the disturbing two weeks before she was reported missing; Perry March's flight with his children to Mexico; the international custody battle over the two March children, Sammy and Tzipora. A decade after Janet's disappearance, Nashville's Cold Case Unit develops a case against Perry, and a secret grand jury is empaneled. Following his murder indictment, and with the involvement of the FBI and the office of Mexican President, Perry is arrested and extradited back to Tennessee. Excellent detective work uncovers a scheme by Perry March from behind bars, while he is awaiting trial, to hire a hit-man to murder his former in-laws. Perry goes to trial almost 10 years to the day from the date his young wife vanished. Assistant D.A. Tom Thurman has his work cut out for him– no body, no cause of death, no physical evidence– but in the third of a series of trials, Perry March is found guilty. The “smartest guy in the room” goes to prison for 56 years.

The March case received national attention over the decade from 1996 to 2006, during which time CBS's *48 Hours* aired four episodes. Leslie Stahl stated, “This is as good a mystery as you will ever see—in fiction or in real life.”

SEASON OF DARKNESS

Marcia Trimble and the Coldest Cold Case Solved

By Doug Jones and Phyllis Gobbell
Penguin Random House

Radio personality Teddy Bart, on the Marcia Trimble case:

"It had all the elements: a beautiful little girl, a murder, a bungled police operation, fundamentalist religion, and a neighborhood where things like this aren't supposed to happen."

It is a spring-like February afternoon in 1975. Nine-year-old Marcia Trimble, who lives in a quiet, attractive neighborhood, goes across the street to deliver Girl Scout cookies. She never comes home. Her disappearance prompts a massive search, unlike anything known in Nashville, Tennessee. Turf wars develop among the various police units, each with its own command structure. Volunteers trek through the neighborhood leaving millions of fingerprints and footprints before FBI agents arrive. Police set up a command post in a bedroom of the Trimble house. Detectives question Jeffrey Womack, who lives on Marcia's street. The 15-year-old has a condom in his pocket, and "Fuck You" written on his shoes. He is targeted as a suspect, and police will pursue him for more than 30 years.

Young detective Diane Vaughn has been working on a series of rapes and the murder of a college coed named Sarah Des Prez, all within a five-mile radius of the Trimbles' neighborhood. She is close to connecting those vicious crimes. But she is drawn away into the search for Marcia Trimble, which has consumed police, the media, and the entire city.

Marcia's mother, Virginia Trimble, is a devoutly religious woman, one whose stoic demeanor in front of the TV cameras fuels nasty rumors and innuendos. On Good Friday, Virginia tells reporters, "It is a time of miracles. Who knows what may happen?" On Easter morning, 33 days after Marcia's disappearance, the child's body is discovered in a deteriorated garage less than 200 yards from the Trimbles' front door. The family is grief-stricken. The city is in shock. One statement will come to define the Marcia Trimble murder: "In that moment, Nashville lost its innocence."

The police are under even more pressure to solve what is now a homicide. They focus their investigation on the boys in the neighborhood, with Jeffrey Womack as the prime suspect. In the wake of bizarre stories involving the children, many of the families move away. The Trimble murder and investigation take a brutal toll on Marcia's family, her neighborhood, and the police department. The Marcia Trimble story becomes part of the fabric of Nashville.

What follows is a trail of twists, turns, frustrating dead ends, lives forever damaged, and a city forever changed. The mystery evolved over three decades. Investigators are criticized for their "tactics of intimidation" in obtaining DNA samples from more than 100 young men, most of whom were "boys in the neighborhood" in 1975. Though no evidence ever implicates Jeffrey Womack, he remains under a cloud of suspicion. It seems the case will never be solved.

But in 2007, the reopening of another 1975 case plunges Cold Case detective Bill Pridemore into the heart of the Marcia Trimble case again. He takes a fresh look at all the evidence. The good police work by Detective Diane Vaughn, deceased since the 1980s, leads Pridemore to an astonishing revelation about the Des Prez murderer—paving the way for a shocking, long-awaited conclusion to the coldest of cold cases: the Marcia Trimble murder.

It started with just one girl and became a movement among millions that will change the way a world fights cancer. **Notes Left Behind** is a story that Elena's parents never wanted to tell; the story of love, compassion and six-year-old Elena's heroic fight against cancer. From cereal kisses in the morning to trying on wedding dresses far too early, and to the simplest action of holding hands with their daughters on the way to school, the Desserich's book has been called "The Last Lecture for parents."

It began with a series of notes left by Elena for her younger sister Gracie as a form of remembrance, and was soon followed by thousands of mothers and fathers who heard the story on the internet and were each inspired to appreciate and love their own children in more clear and present ways. Learning to value the smaller moments in life over the milestones, the Desserich family passed on the lessons of their children in touching journal entries that captured the joy and passion of a family who discovers the true value of life in drinking deeply of the day.

But it was after Elena's passing and the completion of the journal, that the Desserich's soon discovered the most important lesson their daughter was to leave behind. Finishing a remodeling project that began prior to her diagnosis, they soon started to find hundreds of notes hidden throughout the house from Elena – each with a simple message of love and compassion. And in doing so, Elena would leave her own notes and memories that would endure today. Within days of its initial release in the US, **Notes Left Behind** immediately became a New York Times Bestseller, receiving the attention of The Today Show, CNN, Good Morning America, People Magazine, AOL.com, Yahoo.com, Air America, Inside Edition and beyond. Soon it developed a worldwide following with over 24 different foreign language translations.

Written as a celebration of Elena's life, the inspirational **Notes Left Behind** today now accomplishes the impossible through the charity created in her honor, The Cure Starts Now. Developed as a calling to fight those cancers that experts believe will offer us a cure for all cancers, it represents a revolutionary cancer strategy that has never before been proposed. And today this "homerun" cure strategy sweeps the world with over 20 chapters and thousands of sponsors. All US and Canadian author proceeds benefit www.TheCureStartsNow.org

"This is a stunning story that teaches us how precious children, family and life are, and that the sacrifices we make are worth it. I won't forget the Desserich family, and neither will you." —**James Patterson, Renowned Author**

Chasing Portraits

A Great-Granddaughter's Quest for Her Lost Art Legacy

By Elizabeth Rynecki

Penguin Random House

Moshe Rynecki's body of work reached close to eight hundred paintings and sculptures before his life came to a tragic end. It was his great-granddaughter Elizabeth who sought to rediscover his legacy, setting upon a journey to seek out what had been lost but never forgotten...

The everyday lives of the Polish-Jewish community depicted in Moshe Rynecki's paintings simply blended into the background of Elizabeth Rynecki's life when she was growing up. But the art transformed from familiar to extraordinary in her eyes after her grandfather, Moshe's son

George, left behind journals detailing the loss her ancestors had endured during World War II, including Moshe's art. Knowing that her family had only found a small portion of Moshe's art, and that many more pieces remained to be found, Elizabeth set out to find them.

Before Moshe was deported to the ghetto, he entrusted his work to friends who would keep it safe. After he was killed in the Majdanek concentration camp, the art was dispersed all over the world. With the help of historians, curators, and admirers of Moshe's work, Elizabeth began the incredible and difficult task of rebuilding his collection.

Spanning three decades of Elizabeth's life and three generations of her family, this touching memoir is a compelling narrative of the richness of one man's art, the devastation of war, and one woman's unexpected path to healing.

KIRKUS REVIEW

A page-turning personal history of Rynecki's search for her great-grandfather's legacy.

Moshe Rynecki (1881-1943) was a Polish artist whose work "detailed the everyday lives of Polish Jews in the 1920s and 1930s." His singular *oeuvre* shows the culture and quotidian activities of his people, and his very identity was intimately tied to his Jewish heritage, even to the point of following them into the Warsaw ghetto. He was an ethnographically inspired painter and thought abstract styles would detract from the world he was portraying. He and his wife, Perla, operated an art supply store—or she did while he painted. By the time of the Nazi invasion in 1939, he had 800 works that needed to be protected. With his son George's help, he took paintings out of frames, rolled them up, and put them into piles. Moshe also made a list of which pieces went into each pile, but, unfortunately, the list was lost. The works were entrusted to friends to be retrieved after the war. When the Nazis moved the Jews into the ghetto, George refused to take his family, hiding their Jewishness with new identities. Because Moshe would not deny his heritage, he and Perla entered the ghetto. In 1942, George got his mother out, but his father felt that he had to go "where brothers and sisters go. And if it's death, so be it." The last they heard was that he was on his way to a death camp. After the war, Perla found a bundle of more than 100 paintings and gave them to her son, who moved to the U.S with his wife. That much of the story is fascinating, but it's only the beginning, as the author discovers her grandfather's memoir and begins her search for his paintings. *A wonderful story beautifully told. Rynecki's yearslong search, successes, frustrations, and failures are a study in perseverance.*

Fraction Of A Point

By Nina Mandell

Kent State University Press | 2025

Visitors driving into Brecksville, Ohio, a leafy suburb west of Cleveland are greeted with a sign that they have to squint to read the details of. “Brecksville, Ohio,” it reads. “Home to the 2004, 2005, 2006, 2007, 2008, 2009, 2010, 2011, 2012, 2013, 2014, 2015, 2016, 2017, 2018, 2019, 2020, 2021, 2022, 2023 OHSA gymnastics champions.” The public high school’s gymnastics team, the Brecksville-Broadview Heights Bees have won - going into the 2023-2024 season - 20 state championships in a row.

Each year, the stakes get higher. And the gymnasts, all of whom have to live in the school district to compete for the team, are left with the responsibility of continuing a streak that began before they were even born. And if that wasn’t enough motivation, the streak is often viewed as an homage to the family that started it: The Ganims, an influential local family who has been like a second family to hundreds of gymnasts through the years.

The reason for the streak is a local private gymnastics club, Gymnastics World. It was started by Joan and Ron Ganim in the 1970s after Joan was forced out of her teaching job after giving birth to her third child. Ron, who died in 2017, and Joan quickly decided a few things about their gym: It wasn’t going to coach gymnasts who are aiming for the Olympic level. And they wanted nothing to do with coaches who are mentally or physically abusive to their gymnasts, like so many they saw at early meetings. They focused early on the mental health of gymnasts and coaching them to be happy and supportive - an atmosphere so welcoming that Olympian Dominique Moceanu once walked in and was taken so aback she asked for a job there.

Through a combination of business and coaching savvy, the gym now has three locations (one is a cheerleading gym) and feeds what the brother of Brecksville assistant coach (and former star) Leah Miko once called “a gymnastics factory” that is the Brecksville team.

“A Fraction of A Point” follows the team through its 2022-23 season as the gymnasts compete for the 20th consecutive state title - and all of the interpersonal relationships, mental challenges and drama that comes with trying to make the state lineup and trying to keep the streak alive. The story is filled with characters impossible not to root for and a legacy that often times feels impossible to live up to.

About the author: Nina Mandell is a Cleveland-based journalist who is a graduate of Northwestern University. Her work has appeared in USA Today, ESPN, Sports Illustrated and more.

GOLD FROM IRON: The Nick Baumgartner Story

By Nick Baumgartner with Jeff Seidel
Triumph Books | 2024

Nick Baumgartner won his gold, not just for himself, not just for Michigan. Not even for Team USA. He did it for everyone chasing a dream after they thought they'd run out of chances.

The oldest athlete to compete for Team USA at the Beijing Olympics, forty-year-old Nick Baumgartner missed out on competing in the men's final for Snowboard Cross, his specialty. Crying in the way only [a post-loss interview](#) can elicit, Nick spoke openly about the heartbreak – and went viral.

It was his fourth Olympics, he'd trained for years, he was "running out of chances," and he didn't want to end in a disappointment like this. Little did he know his Olympic dream wasn't over, as two days later he was chosen to compete in the inaugural mixed snowboard cross event at the Olympics, pairing up with Lindsay Jacobellis. Nick had one chance left.

Growing up in Iron River, Michigan, part of the Upper Peninsula (the U.P., home to the self-proclaimed Yoopers), Nick lived the kind of story Disney underdog films are made of. **GOLD FROM IRON: The Nick Baumgartner Story** takes you from Beijing to Iron River, and back again. A union man who pours concrete and works construction in the offseason to fund his Olympic dreams, a single dad of a seventeen year-old, and guy too stubborn and too driven to ever give up. From early days in a town of less than 3,000 people, this blue-collar Olympian chased his need for speed and created opportunities – whether playing football, competing in the X-games, or supporting his foster-siblings. Then he found snowboard cross.

Appropriately, the mixed snowboard cross is a team event, and Nick is the first to tell you he couldn't chase his dream without the support of his team – his family and entire community. Perhaps that's why his earlier solo loss made him feel like he let people down. This time, in the mixed snowboard cross, he and his teammate would have to lean on each other. The men race first, and their performances determine the women's starting positions. Then the men must [wait and watch from the bottom of the hill](#).

This is Nick's story, **GOLD FROM IRON**, told with the help and guidance of award-winning Detroit Free Press journalist Jeff Seidel, who has followed Nick's career. Jeff has been nominated for a Pulitzer Prize more than ten times and in 2022, he won the Triple Crown in the Associated Press Sports Editors writing contest, which is considered one of the highest honors for sports writing.

When the gritty world of a television crime reporter invades the daily life of a mother raising two little girls, there is an endless amount of humorous and dramatic material for a television sitcom.

***Smotherhood*™** is a collection of laugh-out-loud, tender, unfiltered anecdotes about balancing work and parenting. For hard-charging local television reporter Amanda Lamb, ***Smotherhood*™** is a way of life. She reads autopsy reports while her daughters sing Taylor Swift songs on their karaoke machine in the next room. She listens to her daughter's story of losing a tooth on her cell phone while waiting in the jail for a homicide suspect to be booked. She ducks out of a murder trial to see her daughter play a cirrus cloud in the school play.

Smotherhood*™**, a name which Lamb has registered as a federal trademark, is an ongoing balancing act as Lamb juggles the pressures of her high-profile stressful job with the mundane moments of parenting. The result for readers and would-be viewers of a sitcom is the hilarious melding of two disparate worlds. From talking to the district attorney on her phone in a bathroom stall while her daughter poops, to listening to her editor curse like a sailor on her Blue Tooth in the car with a carload of kids, parents everywhere will relate to Lamb's unlikely predicament as her two worlds continually collide. And the ***Smotherhood*™** journey continues...Lamb has also penned a follow-up, ***Girls Gone Child, with plenty of new humorous material. In addition, she writes the weekly blog: [Go Ask Mom](#).

Smotherhood One Hour:

Nothing is more poignant than the extremes of the two worlds colliding—one that focuses on death, the other that revolves around the living. ***Smotherhood*™** is a collection of tender, humorous essays that chronicle the disparate worlds of hard-charging local television crime reporter Amanda Lamb as she navigates between her job covering murder cases and her job at home as a mother to two little girls. In her high-stress, intense professional life Lamb covers grizzly murder cases with a competitive spirit and passion that often lead her down dangerous paths both literally and figuratively. But her role as a mother to two precious daughters is the anchor which grounds her in reality.

With the help of her good old boy husband, Grif, she somehow maintains her sanity amidst the daily chaos of her life. ***Smotherhood*™** is the perfect material to use as the background for a one-hour television drama.

It contains just the right blend of heartwarming, humorous moments juxtaposed against the gritty backdrop of the darkness witnessed by a television crime reporter. Viewers will relate to the challenges of balancing work and family, but at the same time be intrigued with how Lamb's world at work is so contradictory to her life at home. And there's plenty of material. Lamb has also written a follow-up to ***Smotherhood*™** titled ***Girls Gone Child and*** continues to keep a diary of her most memorable moments in television news, and there are *many*.

Soles of a Survivor

The Unbelievable True Story of a Vietnamese Refugee Who Not Only Made the United States Her Home, But Learned the True Value of Hope, Love, and Religion Along the Way

by Nhi Aronheim, Skyhorse

"Nhi Aronheim has lived many lives: the privileged daughter of a physician in Vietnam, frightened child who escapes barefoot through the jungles of Cambodia, refugee in Thailand with only two pieces of clothing to her name, adopted daughter of an American family in the South, and now wife, mother, and writer. In Soles of a Survivor, she writes beautifully about war and its aftermath, adversities and misfortunes to be overcome, the vicissitudes of religion and fate, and, ultimately, resilience, endurance, and gratitude. Her life and her words are inspiration."— Lisa See, New York Times bestselling author of *Snow Flower and the Secret Fan*, *The Tea Girl of Hummingbird Lane*, *Peony in Love*, *Shanghai Girls*, *Dreams of Joy*, and *China Dolls*

From one corner of the world to another, the global community is experiencing the worst refugee crisis in history. For too many of us, the reality refugees face seems far away and hard to imagine. That's one reason Nhi Aronheim's compelling new book is so helpful right now. By sharing her own story, she makes the refugee crisis real, personal and understandable for the rest of us. Her resilience and path to new life should give us hope that the same path is possible for others. We need Nhi's message now because millions of refugees need our help now more than ever." — Michael J. Nyenhuis, President and CEO, UNICEF USA

The soles of Nhi Aronheim's feet still bear the scars of her escape from Vietnam—trudging through the jungles of Cambodia as a twelve-year-old with a group of strangers seeking the land of opportunity: America.

Her quest for survival through the Cambodian jungle eventually led her to a boat that took her to Thailand and an orphanage where Nhi lived for two years until she qualified for refugee status in the U.S. Years later, she returned to Vietnam to reunite with the family she never thought she'd see again. A second trip to Vietnam brought her two mothers, birth and adopted, face to face.

Yet *Soles of a Survivor* isn't just another inspirational survival story. It's about the lessons Nhi learned about humanity, diversity, and unconditional love since arriving in the United States. She now has a deeper appreciation for the parallels between the Jewish and Vietnamese cultures, and others. After she met her Jewish beau, they got married. She eventually converted to Judaism, though the process was challenging for an Asian woman adopted into a Christian household. Her story shows it matters less what religion we're part of as long as we radiate goodness to those we meet. Now she relishes being a Vietnamese Jew.

Having come full circle from prosperity to poverty and back, Nhi hopes to encourage others to believe that in spite of overwhelming odds, all things are possible if one has an intense desire, focused energy, and the audacity to grasp presented opportunities.

Several anthologies including *Kentucky Women: Two Centuries of Indomitable Spirit and Vision*, Colorado Public Radio (CPR), Harvey Brownstone Interviews (Canadian Show), and Lotus Network have profiled her harrowing journey as a child refugee who escaped war-torn Vietnam in search of the American Dream.

Wanting to make a positive difference in people's lives, Nhi has been a mediator and interpreter since her retirement from the mortgage industry.

STRAIT JACKETS AND LUNCH MONEY

By Katya Cengel, Woodhall Press 2023

A psychologist described the pandemic as having thrown gasoline on embers that were already glowing. The fire in question – a mental health crisis for children under 13. Between the same six-month period in 2019 and 2020 the proportion of children ages 5 to 11 seeking mental health treatment in emergency rooms around the country versus other treatments saw a 24 percent increase.

Providers and parents cite the same concerns author Katya Cengel experienced as a young child and reports on as an adult: lack of treatment and options for younger patients, smaller insurance reimbursement for mental health care compared to other medical services, and lack of screening for young children.

Katya was ten years old when she was institutionalized in 1986. Her young age set her apart from the other – mostly teenage – children on the psychosomatic unit: anorexic girls became her babysitters, non-compliant diabetic boys her big brothers. Instead of learning her multiplication tables, Cengel learned how to throw up. The bulimic teens taught her that. Visitors from other units showed her how to be ashamed. Hospital staff put her in a straitjacket – and on anti-psychotic medication. Her young age, the length of her stay – almost three months – and her lack of diagnosis inspired a rare intimacy in staff and patients, allowing Katya to penetrate a hidden world more deeply than most.

Thirty years later Cengel, now a journalist, returns looking for answers and discovers her young age was not the only thing that made her stay unusual. The idea of psychosomatic units themselves, where patients have dual medical and psychological diagnoses, was a revolutionary one. Treating the medical alongside the psychological has since largely fallen out of favor. Cengel finds this out when she tracks down the doctors, psychologists and counselors who once cared for her. She tells that part of the story as a journalist.

The account of what happened to her as a child is told in the voice of a ten-year-old girl. The two narratives unfold simultaneously. The result is a gut-wrenching account of childhood mental illness told from the inside interspersed with updates from experts in the field on everything from Munchausen syndrome by proxy to psychological disorders in which a patient's physical symptoms cannot be fully explained by a medical or neurological condition.

With the news sense of a seasoned journalist whose bylines have appeared in *New York Times Magazine*, *Smithsonian* magazine, and *Marie Claire* magazine – and the spirit of a former patient – Cengel investigates her biggest story yet, her own.

Katya Cengel became patient number 090 71 51 at the Roth Psychosomatic Unit at Children's Hospital at Stanford in 1986. She was ten years old. Today she is the author of three traditionally published non-fiction books and reports from around the world for *New York Times Magazine*, *Marie Claire* and *Smithsonian* among others. She has been awarded grants from the International Reporting Project, the International Women's Media Foundation and the International Center for Journalists. www.KatyaCengel.com

From Chernobyl With Love

By Katya Cengel

In 1986 an explosion at the Chernobyl Nuclear Power Plant in the Ukrainian Soviet Socialist Republic helped trigger the collapse of the Soviet Union.

Three and a half decades later, in 2022, the plant's capture by Russian forces reminded Ukraine – and the world – that, for Russia, it isn't over.

In between an American reporter and a Ukrainian photographer fell in love. At Chernobyl. Site of world's worst nuclear disaster.

They met on a press bus after witnessing the plant's last working reactor being switched off in December 2000. Another journalist – Georgiy Gongadze – had already gone missing. Later the discovery of Gongadze's headless corpse and secret audiotapes that seem to implicate the government in his murder spark a movement that topples the government, setting off revolutions that ultimately end in war.

Before that though, there was something else – hope.

In the wake of the fall of the Berlin Wall, the late twentieth century was a time of unprecedented optimism. The collapse of the Soviet Union left behind a number of independent countries where the Scorpions' 1990 pop ballad "Wind of Change" became a rallying cry.

Young writers, journalists, and adventurers flocked from the West eastward to cities like Prague and Budapest. Katya Cengel landed in Riga, Latvia. She took her first job at the *Baltic Times* just seven years after Latvia regained its independence and less than a week after she graduated from college. Two years later she was in Kyiv, Ukraine. In the three years she reported from Ukraine she made several trips to Chernobyl, where she met her fiancé. But as she fell in love, Ukraine collapsed, bringing it to the brink of political disintegration and civil war. Ultimately, this fall of idealism in the East underscores Cengel's own loss of innocence.

From Chernobyl with Love is an equal parts heartbreaking and humorous true coming of age story of a girl and a country made all the more poignant because of current events.

Katya Cengel lived and reported from the former Soviet Union for half a decade and continues to cover the region, most recently for *Smithsonian Magazine*. She is the author of three traditionally published non-fiction books and reports from around the world for *New York Times Magazine*, *Marie Claire* and *Smithsonian* among [others](#). She has been awarded grants from the International Reporting Project, the International Women's Media Foundation and the International Center for Journalists.

"Not too many young journalists would ditch the beaches of California for the cold, corruption, and chaos of Eastern Europe after the fall of the Berlin Wall. But Katya Cengel is no ordinary scribe. In her witty, insightful, and heartfelt memoir, *From Chernobyl with Love*, Cengel uncovers it all, from Latvian Nazis to Ukrainian uprisings to finding love in the land of nuclear disaster. *From Chernobyl with Love* is a rewarding blend of candid experiences and expert reporting from an important yet enigmatic part of the world." — **Franz Wisner**, *New York Times* best-selling author of *Honeymoon with My Brother*

THE NEXT EVEREST

Surviving the Mountain's Deadliest Day and Finding the Resilience to Climb Again

By Jim Davidson, NYT Bestselling Author

St. Martin's Press

100th Anniversary of the First Everest Expedition

"[Davidson] follows in the literary trail blazed by Krakauer . . . a gripping account." —*The New Yorker*

"There's more to this book than a disaster survival story...authentic, illuminating." —*Outside*

"Deft and honest....Davidson exorcises the demons of a tragedy decades in his past."

—David Roberts, author of *The Mountain of My Fear*

Harrowing." —*Forbes*

On April 25, 2015, Jim Davidson was climbing Mount Everest when a 7.8-magnitude earthquake released avalanches all around him and his team, destroying their only escape route and trapping them at nearly 20,000 feet. It was the largest earthquake in Nepal in eighty- one years and killed nearly 8,900 people. That day also became the deadliest in the history of Everest, with eighteen people losing their lives on the mountain.

After spending two unsettling days stranded on Everest, Davidson's team was rescued by helicopter. The experience left him shaken, and despite his thirty-three years of climbing and serving as an expedition leader, he wasn't sure that he would ever go back. But in the face of risk and uncertainty, he returned in 2017 and finally achieved his dream of reaching the summit.

Suspenseful and engrossing, *The Next Everest* portrays the experience of living through the biggest disaster to ever hit the mountain. Davidson's background in geology and environmental science makes him uniquely qualified to explain why the seismic threats lurking beneath Nepal are even greater today. But this story is not only about "conquering" the world's highest peak. Instead, it reveals how embracing change, challenge, and uncertainty prepares anyone to face their next "Everest" in life.

JIM DAVIDSON is an accomplished high-altitude climber, photographer, motivational speaker, and coauthor of the *New York Times* bestseller *The Ledge*. Along with his teammates, he has been commended twice by the U.S. National Park Service for volunteering on risky and remote mountain rescues. He has inspired audiences across the U.S. and overseas through his professional business, **Speaking of Adventure**. Davidson has two adventurous children and lives in Colorado with his very tolerant wife.

IMPOSSIBLE ODDS:

**The Kidnapping of Jessica Buchanan and Her
Dramatic Rescue by SEAL Team Six**

**By Jessica Buchanan, Erik Landemalm with Anthony Flacco
Atria/Simon & Schuster**

***Screenplay available**

Formerly under option with Clint Eastwood, Warner Bros.

On October 25, 2011, 32-year-old **Jessica Buchanan** is an attractive American teacher working for a humanitarian NGO in Somalia. She trains local communities on how to avoid the landmines and unexploded munitions that litter the region. But on this day, she and an older male colleague are kidnapped at gunpoint and held for ransom by an organization of Somali pirates who have moved their operations on land. Their number includes traumatized child soldiers who are hooked on drugs supplied by their masters.

An FBI asset sees the attack and within two hours the White House and FBI are already monitoring. They quickly locate the captors out in the desert, but fear that an attack will only result in the captives' deaths. Jessica's sole source of hope among her captors is a Somali man of goodwill, who has only joined the captors because they were going to force his son into their child army. He saved the boy by going in his place. He hates what is happening there but can only give limited support.

For the next three months, Jessica is terrorized by more than two dozen terrorists, some adult and some very young, who carry assault rifles at all times and work themselves into near delirium by chewing addictive khat leaves. She is held outdoors in filthy conditions and kept on a starvation diet while her health and that of her 60-year-old Danish counterpart steadily deteriorates. Negotiations drag. Strangely, her worst tormentor is the youngest, a child soldier of about 12, who appears determined to inflict all the sadism upon others that the world has shown to him. Only Jessica's "friendship" with her one reluctant captor named "Helper," plus her understanding of their culture, allows her to manipulate the men just enough to remain alive. She repeatedly staves off rape and mock execution. But while tied to trees in the Somali wilderness, she slowly succumbs to malnutrition and kidney failure, and only keeps her sanity by visualizing long visits to familiar places.

As the ordeal stretches into its third month, the captors grow increasingly nervous. They worry about turncoats within their own ranks. Nobody can be trusted. The khat leaves fuel paranoia. The aura of the camp shifts to desperation laced with heightened suspicion. The kidnappers become even more agitated when a faint but constant droning sound begins to drift down from somewhere high overhead. It is nearly too soft to hear and never quite identifiable. Nobody can see anything up there, but the noises continue. Their paranoia is correct here; the SEALs are watching everything these men do.

Throughout the ordeal, every moment Jessica Buchanan spends suffering in captivity is matched by that of her adoring husband of less than three years, **Erik Landemalm (35)**, a humanitarian aid worker who manipulates tribal chiefs to circulate false gossip and confuse the kidnappers. While SEAL Team Six rehearses their potential raid, Erik bolsters the hunt for her by acting as liaison between their two families, the FBI, professional hostage negotiators, and the United States Government.

During those torturous months, they are teased by rare chances to communicate for a display of "Proof of Life," and tormented by the kidnappers' unexplained silences and psychotic outbursts. Their long midnight of the soul tests their individual resolve as well as their faith in one another. Finally, after 93 days of fruitless negotiations, Jessica's rapidly failing health raises her medical state to a life and death issue. President Obama secretly orders Seal Team Six to raid the location. The violent rescue by 24 SEALs is played out in detail, from their rehearsals to the parachute drop, to the attack itself. It is January 25, 2012, and while the President delivers his State of the Union speech to a national television audience, the rescue team parachutes from a C-130 under cover of darkness, hikes two miles to the location, and attacks the heavily armed hostiles on duty that night. All are killed with no harm to the hostages, who are quickly airlifted out on a military rescue helicopter.

Today Jessica is a young mother of a son and daughter, a motivational speaker and serves as Goodwill Ambassador for the Navy Seal Foundation. For more about Jessica, see www.JessBuchanan.com

This proposed **six part limited dramatic historical** series with potential for ongoing series is told through the POV of mega-rich financier, **J.P. MORGAN** in following the life of the brilliant inventor Nikola Tesla. It is told through the eyes of those who work with him, work against him, spy on him, believe in him, and betray him. The story follows a five-year timeline from 1899 to 1904. For Morgan, the Great Question is simple: what drives this revolutionary scientific genius -- and does the answer threaten Morgan's empire?

WHY J.P. MORGAN?

These six episodes are told principally from Morgan's POV because he is the reason for the failure of Tesla's plan for Universal Free Energy. Morgan is the source of the blackball put on Tesla by Wall St. investors. Plainly put, J.P. Morgan single-handedly destroyed the career of Nikola Tesla.

But as the story will show, he had no other choice, given the information he possessed. Tesla wasn't dangerous because he was wrong; he was dangerous because he was right. If Morgan hadn't stopped Tesla, then for better or worse, there is no doubt the world would be much different today. And in Morgan's view that meant disaster, either from Tesla himself or from the people given his machines and tearing up the planet with their carelessness.

J.P. Morgan's museum-quality office is the lair of the 19th Century Alpha Male, with oversized Victorian furniture calculated to impress, intimidate. There he pulls in other people (Mark Twain, George Westinghouse, Tesla assistant George Scherff) to ask about Tesla and get their perception of the man. Morgan has massive investments at stake, perhaps entire industries, and he has to know whether or not to continue backing Tesla's experiments or cut him off and leave him dry. The stories these men tell are played out in Morgan's visionary imagination, while *none of them agree* on who this strange man is.

Each time one of them begins talking about Tesla, the narrative begins as seen from their POV, however the POV quickly switches to that of J.P. Morgan, while he visualizes what he is being told. HIS version never makes the speaker or the subject look very good. Everybody in Morgan's POV is always noticeably more unkempt in appearance and slow of speech.

HERE'S HOW THE POV CHANGES ARE USED:

Author Mark Twain looks at Tesla and sees a beautiful genius doomed to be derailed by human stupidity. Tesla plays out exactly that way in Twain's POV.

But while Morgan listens to the famous author, the narrative switches to his POV and shows a decadent writer of trivial popular novels who is speaking up for a dangerously eccentric inventor.

George Westinghouse tells Morgan about his associations with Tesla. In financing the Niagara Falls power system for Tesla, using Morgan's money, he has come to see Tesla as an inventive man. But he sees Tesla's naivety as proving his genius to be overrated.

Of course, while Morgan listens, the narrative shifts to his POV and reveals that he regards Westinghouse as an uncultured “lucky winner” in business. In Morgan’s POV, Westinghouse is a rather unintelligent bore who can barely keep Tesla listening to him when he speaks. Morgan dismisses the worth of his responses, lights a cigar, and begins to sing an idle tune under his breath while Westinghouse drones on.

As for George Scherff, Tesla’s longtime assistant is so kind in his version of Tesla that Morgan accuses him of covering up for his boss. But Scherff persists in telling of a solitary genius who lives most of his life inside his head, where he entertains a “muse” who may be invisible, but who is real to him.

Scherff insists Tesla’s motives are pure. His POV shows Tesla as a passionate romantic with a vivid personal imagination. Scherff tells how he sometimes watches Tesla’s revels from the shadows, a guilty voyeur filled with admiration.

But while Morgan listens, his POV overlaps Scherff’s, and now both Scherff and Tesla come across as “a fool and his servant,” sloppily attired and slower of speech. Morgan sees what the genius cannot: the proposed World Power System would concentrate all broadcasting of electrical power as well as all forms of information to a handful of Tesla Towers around the globe. The commercial and military challenges to seize control of them would never end.

In this way we come to understand why the great J. Pierpont Morgan, more financially powerful than the United States government, will see to it that this man must be stopped. The fact that Nikola Tesla has already conceived, designed, and installed the first electrical generators at Niagara Falls doesn’t speak in his favor-- it proves he must be stopped.

And so, although the Niagara Falls power station is a model for the world’s emerging power grid, Tesla will die in 1943 too poor to pay his own light bill.

According to J.P. Morgan, civilization dodged a bullet.

HIDDEN GIRL

The True Story of a Modern-Day Child Slave

By Shyima Hall

with Lisa Wysocky

Simon & Schuster Books for Young Readers

When Shyima Hall was eight years old her poverty-stricken Egyptian parents, overwhelmed with close to a dozen children, sold her into slavery. The price? 17 dollars a month. The wealthy Cairo couple who bought Shyima moved to California two years later and brought the little girl into the US illegally.

As a child slave, Shyima Hall had no friends or family, no emotional support whatsoever. She did not speak a word of English and, after moving to the US, was thousands of miles and an ocean away from everything that was familiar to her. On top of that, a terrorized Shyima was forced to toil 16 or more hours a day, seven days a week for her captor's family, which included five children—some of whom were near her age. At night, Shyima slept on a squalid mattress in a windowless garage. A bucket and some water were all she had in which to wash herself and her clothes; and she was forbidden from going to school. Shyima never visited a doctor or dentist, even when she was ill with the flu. Additionally, her captors continually berated her and often slapped her.

While Shyima was rarely allowed outside the home, a neighbor began to suspect something was not quite right. Rumors abounded, with glimpses of a small dark-haired girl during times children her age should have been in bed. In 2002, possibly acting on a tip from a neighbor, child welfare authorities rescued Shyima. US Immigration and Customs Enforcement (ICE) investigated her case, and her captors were eventually prosecuted and imprisoned.

At the time of her rescue, 13-year-old Shyima decided to stay in the US. She hasn't returned to Egypt or seen her family since. While Shyima may have been isolated during her slavery, she was not alone. From 2010-11, US federal immigration officials launched 651 investigations into human trafficking and arrested roughly 300 people. According to the United States State Department, there are more than 12 million people entrapped in some form of slavery worldwide.

While Shyima could have chosen to fade into obscurity, she has decided on a much different path. Now 26, Shyima speaks to groups across the country about combating human trafficking and has often briefed ICE agents about the emotional and physical trauma that victims endure. Shyima's dream is to become a federal agent for ICE to help crack down on human trafficking and free the enslaved. And, she took a major step toward that goal in December 2011 when she became a citizen of the United States.

Hidden Girl empowers readers to step up when they believe a wrong is being committed. If not for a concerned neighbor, Shyima might still be ensnared in the web of slavery. This first-person, 65,000-word narrative details Shyima's difficult Egyptian childhood and her challenging years as a slave. Her assimilation into foster homes, school, eventual adoption, and request for legal emancipation is shown through the rare point of view of a young teen experiencing both freedom and the culture of the United States for the first time.

Shyima's many firsts are also shared. Imagine being 13 and never having seen the inside of a school, been to a movie or a store, eaten at a restaurant, or made a friend. These emotional firsts are told with honest humility and wonder and come with their own unique set of challenges. The story culminates with Shyima triumphantly standing before a federal judge and being sworn in as a naturalized citizen of the United States. *Watch AP story:* [AP Video Story](http://apvideo.com/APVideoStory)

NOTES LEFT BEHIND

By Keith and Brooke Desserich

William Morrow/HarperCollins Translated in 24 languages.

It started with just one girl and became a movement among millions that will change the way the world fights cancer. **Notes Left Behind** is a story that Elena's parents never wanted to tell; the story of love, compassion and six-year-old Elena's heroic fight against cancer. From cereal kisses in the morning to trying on wedding dresses far too early, and to the simplest action of holding hands with their daughters on the way to school, the Desserich's book has been called "The Last Lecture for parents."

It began with a series of notes left by Elena for her younger sister Gracie as a form of remembrance and was soon followed by thousands of mothers and fathers who heard the story on the internet and were each inspired to appreciate and love their own children in more clear and present ways. Learning to value the smaller moments in life over the milestones, the Desserich family passed on the lessons of their children in touching journal entries that captured the joy and passion of a family who discovers the true value of life in drinking deeply of the day.

But it was after Elena's passing and the completion of the journal, that the Desserich's soon discovered the most important lesson their daughter was to leave behind. Finishing a remodeling project that began prior to her diagnosis, they began to find hundreds of notes hidden throughout the house from Elena – each with a simple message of love and compassion. And in doing so, Elena would leave her own notes and memories that would endure today. Within days of its initial release in the US, **Notes Left Behind** immediately became a New York Times Bestseller, receiving the attention of The Today Show, CNN, Good Morning America, People Magazine, AOL.com, Yahoo.com, Air America, Inside Edition and beyond. Soon it developed a worldwide following with over 25 different foreign language translations continuing into 2010.

Written as a celebration of Elena's life, the inspirational **Notes Left Behind** accomplishes the impossible through the charity created in her honor, The Cure Starts Now. Developed as a call to fight those cancers that experts believe will offer us a cure for all cancers, it represents a revolutionary cancer strategy that has never before been proposed. And today this "homerun" cure strategy sweeps the world with over 20 chapters and thousands of sponsors. All US and Canadian author proceeds benefit www.TheCureStartsNow.org

"This is a stunning story that teaches us how precious children, family and life are, and that the sacrifices we make are worth it. I won't forget the Desserich family, and neither will you." —**James Patterson, Renowned Author**

SIGN OF LIFE

A Story of Family, Tragedy, Music and Healing

By Hilary Williams, Daughter of Hank Williams Jr. , With M.B.Roberts
DaCapo Press/Perseus Books

From the time she was eight years old, singer-songwriter Hilary Williams lived with an empty place in her heart. It was the year her parents divorced, and it hurt – still hurts. She felt as though she lost her father, country music superstar Hank Williams, Jr., even though he wasn't around much anyway.

Hilary never knew her famous grandfather, country music icon Hank Williams, who died tragically nearly thirty years before she was born. Another piece of the empty place in her heart. Warren White, her maternal grandfather was different. She knew him well and loved him dearly. He died in the early spring of 2006. Hilary would strive to fill part of the empty space with his memory.

It's a sunny March day. Hilary, 26, and her sister Holly, 24, are driving down a rural stretch of Mississippi road en route from Nashville to Louisiana for their grandfather Warren's funeral. Back in Tennessee, their father, Hank Williams, Jr., sits in a barber's chair while his pilot readies his private plane to fly him to the service. Hilary and Holly's mother, Becky, along with their grandmother, aunts and many cousins are in Louisiana preparing for the funeral.

The girls are riding along when Hilary reaches for her iPod. In an instant, the car hits a series of ruts in the road, flips violently four times and lands mangled on its side. Holly's arm is trapped under the car. Hilary is dangling upside down with crushing injuries to her collarbone, hips and legs. Hilary's blood loss is massive and just as a Life flight helicopter lands and EMT's rush to her aid, she dies.

Hilary is transported during a vivid Near-Death experience. She sees a glittering vision of heaven and is comforted by her deceased grandparents, Hank and Audrey Williams, as well as her Godparents, Johnny and June Carter Cash. Then, she is brought back as EMT's heroically revive her using an experimental blood substitute. Holly, whose injuries are less severe, is flown to the hospital in Memphis followed by a helicopter carrying Hilary, who is barely grasping onto life.

Becky, who received a chilling phone call from the accident scene where she could hear Holly's screams, leaves her father's wake and heads to Memphis. Hank Jr. diverts his plane from Louisiana to Memphis, arriving just in time to see Hilary, cold and pale, being wheeled into surgery. Hours later, Hilary wakes to find her father holding her hand and weeping softly at her bedside. Later, he recounts details of his own near-fatal accident when he fell off a mountain twenty years ago. The revelation that Hank Jr. and Hilary were the exact same age when both nearly died – and memories of Hank Sr. dying at the height of his fame in the backseat of a car—begs the question: Is there a Williams curse?

Back-to-back surgeries – eventually she will endure 23-- fill the first few days in Memphis, where Hilary stays for a month. A National Enquirer reporter dressed as a plumber tries to get into Hilary's room. Hank Jr.'s close friend Kid Rock visits. Doctors warn Becky that they may have to take her leg in order to save her life.

Hilary's diabetes causes complications during surgery after surgery performed to repair her shattered body. During one particularly excruciating physical therapy session, her doctor tells her that "Pain is a sign of life." This is a mantra she won't forget.

Six weeks after the accident, Hilary comes home to her mother's house in Nashville. She stays in a hospital bed in the living room for six months. Becky and Holly dress her, bathe her, and help her go to the bathroom. Humbling to say the least. Often alone with her thoughts, Hilary remembers childhood traumas (her mother crying in the arms of her best friend Jessie Colter after her parents' split, being diagnosed with juvenile diabetes), as well as happy memories (a poolside party at Waylon Jennings' house, Johnny Cash singing happy birthday to her over the phone). She has bizarre recollections (fans shooting off guns in the driveway in tribute to Hank Jr., house sitting for half-brother Shelton, a.k.a. Hank III, at his haunted house). She also thinks of her grandfather, who endured back surgery and became hooked on painkillers similar to those she is taking.

Karen Pryor, a therapist who is part-drill sergeant, part-sweet preschool teacher, pushes Hilary to learn to walk as she struggles with severe pain and frustration. After a follow-up surgery, Hilary begins the entire process from scratch. Then, unexpectedly, the "permanent" rod in her leg breaks. Disheartened, she struggles to learn to walk yet again. Depression sets in. She is cheered by visits from her half-brother Sam, and half-sister Katie, who she loves dearly despite her dislike of their mother.

Fear of permanent damage to her vocal cords (due to intubation while she was hospitalized) and her waning confidence prevent Hilary from singing at first. She is afraid to try. She also fights feelings of jealousy towards Holly, whose singing career is taking off. Nonetheless, Hilary starts voice lessons and despite being wheelchair-bound, also begins to date. Three years after the accident, Hilary performs a concert at a small venue in Nashville. The place is packed, and she meets her goal of walking onto the stage unassisted. She brings down the house when she sings "Sign of Life," the inspirational song she wrote about her life-changing experience. The moment onstage is more than a happy ending. It's the beginning of a young woman's life. Still to be seen is how Hilary Williams, who found deep layers of determination during her recovery, will fit into the legacy of her famous family. <http://www.soundlikenashville.com/news/hilary-williams-debut-album-lucky-scars/>

This exhilarating historical crime series features real-life figures and events. Perfect for fans of The Devil in the White City!

The year is 1920, and following the end of WWI, a horrifying child trafficking ring known as the “Baltic Pipeline” is running out of eastern Europe. In the U.S., the perpetrators have infiltrated America’s Orphan Trains, which were designed to bring war orphans to new families, and are instead using them to supply de facto slaves to the most corrupt members of our financial elite.

Vignette Nightingale (24) and her adoptive father Randall Blackburn (49) are the private investigators hired to combat the smuggling ring, but quickly find themselves plunged into a sinister investigation with roots far deeper than they could have imagined. They are aided by NYC’s first all-female police squad, operated by led by Deputy Commissioner Ellen O’Grady, NYC’s first female Police Commissioner, and by Detective Isabella Goodwin, a master of disguises who heads the squad. Their biggest problem is that the smugglers have bribed or blackmailed so many high government officials and police officers, nobody knows who can be trusted. Betrayal is everywhere.

Beneath the story of intrigue runs the character arc of nine-year-old Dante, an orphan who refuses to discuss his past but who was brought to the U.S. by the traffickers. Vignette meets him on the street and takes him under her wing. He soon comes to idolize Randall and Vignette, and the information he knows about the smuggling ring helps identify and disrupt the murderous human traffickers and their shady allies in the upper echelons of power.

Perfect for fans of *The Tattooist of Auschwitz* and *The Beekeeper of Aleppo*.

In the 1930s, Stalin's activists marched through the Soviet Union, espousing the greatness of collective farming. It was the first step in creating a man-made famine that, in Ukraine, stole almost 4 million lives. Inspired by the history the world forgot, and the Russian government denies, Erin Litteken reimagines their story.

In 1929, Katya is 16 years old, surrounded by family and in love with the boy next door. When Stalin's activists arrive in her village, it's just a few, a little pressure to join the collective. But soon neighbors disappear, those who speak out are never seen again and every new day is uncertain. Resistance has a price, and as desperate hunger grips the countryside, survival seems more a dream than a possibility. But, even in the darkest times, love beckons. Seventy years later, a young widow discovers her grandmother's journal, one that will reveal the long-buried secrets of her family's haunted past.

This is a story of the resilience of the human spirit, the love that sees us through our darkest hours and the true horror of what happened during the Holodomor.

Erin Litteken is a debut novelist with a degree in history and a passion for research. At a Young age, she was enthralled by stories of her family's harrowing experiences in Ukraine before, during and after World War II. She lives in Illinois with her husband and children.

I was utterly gripped by this beautiful novel from the very first page! Litteken has weaved a compelling and intimate story of love and survival. It is harrowing, haunting and chilling in its portrayal of history, illuminating the horrors of the Holodomor in a way which brings us to the heart of the people and families who suffered. And yet, at the same time, it is sensitive, beautiful and inspiring. Everybody should read this story especially now. The Memory Keeper of Kyiv is written by an author who understands the depths of both loss and love. I cannot recommend it highly enough. – Christy Lefteri, #1 international bestselling author of *The Beekeeper of Aleppo*

"A powerfully moving debut. . . on every page the Ukrainian spirit shines out, unbowed, unbent, and unbroken. This is a compelling, timely read." – Kate Quinn, international bestselling author of *The Alice Network*

"A stunning portrait of Ukraine and its people, of strength, of endurance, of the fight for survival during the forced famine, the Holodomor, but also a tender story of Katya, a grandmother whose hidden history holds the power to guide her granddaughter through the darkness of loss and grief, toward life and a limitless future. A remarkable read not to be missed." – Lisa Wingate #1 New York Times bestselling author of *Before We Were Yours*

The Lost Daughters of Ukraine

By Erin Litteken, April 2023

The brand new historical novel from Erin Litteken, bestselling author of *The Memory Keeper of Kyiv*, is based on her family's heart-wrenching escape from war-torn Europe.

A story of the strength of the human spirit, the personal cost of conflict and how love can be found even in the darkest times.

Summer 1941. War rages in Europe. The Germans march towards Ukraine. Halya, Liliya and Vika are no strangers to sorrow. They lost family during the Holodomor, loved ones in Stalin's purges, and war looms once more on the horizon.

Vika lives in fear for her children. She and her sister survived the terror famine by leaving their whole family behind. Now, years later, many believe the Germans will free them from the Soviets, but she's not so sure. Should they stay in Volhynia or flee the approaching Eastern front?

Liliya has lost too much in her 17 years. As those around her join the resistance, Liliya wonders how she can fight for her friends, family, and country. When the choice is made for her, can she find the will to survive and protect those still with her?

Twelve-year-old Halya is struggling to discover who she is. But as the war escalates, can her mother Katya's tactics keep her safe from the Nazi soldiers rounding up slave laborers? How can a child survive the horrors of war on her own?

These daughters of Ukraine will face devastation and loss as they fight to survive and protect the ones they love.

At Singular Cookies, Inc., cookies are like people, each with their own personality.

Twenty-seven-year-old Karina Cortés works as a production floor supervisor at a small family-owned cookie manufacturing plant in Fort Pierce, Florida. It's a well-paying job for a high-school dropout whose only achievement is passing the GED exam.

Work and play collide when she meets the company's hot new mechanic, Ian Feliciano, who stirs up feelings she tends to avoid. Karina knows she shouldn't date him, but she's strong; she'll never turn pathetic like her friends or, especially, her mom. And with a looming plant inspection and two managers butting heads over how to prepare, Karina has enough to distract herself.

As the inspection draws near and Karina battles her heart, she'll have to decide whether to continue holding on to deeply ingrained beliefs that keep everyone at bay, or learn that love is not as dangerous as she fears; that it is our history—our singular recipe—that shapes how we want to live.

On the eve of turning forty, aren’t you supposed to have it all figured out?

Fallon Monroe, premenopausal mama bear of one, self-help book junkie, and budding chocolatier, has always relied on her neighborhood mom friends to get her through the trials of motherhood, because failing together is what makes failing tolerable. So, when her bestie, Beatrice, inexplicably begins ghosting her and takes all their mutual friends with her, Fallon’s left wondering how everything went so wrong. Pushing down a lifetime of insecurities, Fallon doubles down on her can-do attitude and decides to win them back.

She hosts an epic Cinco de Mayo party that goes swimmingly, and she’s on her way back into her friends’ good graces ... until a stripper—who no one fesses up to ordering—literally crashes the party, sending several guests to the hospital and straight out of Fallon’s life. Suddenly she’s more alone than ever.

After failing in her attempts to win back her friends, she joins a friendship app to prove to everyone, especially herself, that she *is* a good friend. When she discovers one of her new friends is in a relationship with Beatrice’s soon-to-be ex-husband, Fallon must decide where her loyalties lie.

And just when she’s about to throw in the dirty towel on the whole friendship mess, she reads a recently-unearthed letter that she had stubbornly refused to open decades earlier. Reading it forces her to finally face the deep-seated fears that she’s desperately tried—and failed—to bury. Now looking at her friendships with fresh eyes, she must decide between hanging on or letting go.

All The Lights Above Us

Inspired by the Women of D-Day

by M.B. Henry

Alcove Press May 2022

"The talent and skills M.B. Henry has shown in her debut novel rate her as an author to follow. Her ability to express different voices of women, under different circumstances, at the same period in history is extraordinary. Telling the story of D-Day through the lives of five women, genius. History will be remembered - inclusive of the military and civilians, as it should be. Embrace these five amazing women who represent the millions of unknown. Do not judge them. This novel should be required reading for young students to remember that day – D-Day. I highly recommend it to readers of all ages and genders."

-Heather Morris, #1 New York Times bestselling author of *The Tattooist of Auschwitz*

*"Everyone's going to read **All the Lights Above Us**. People are going to fall in love with it exactly the way I did. Character by character. I mean there's such emotion in this book. And it's WWII like you've never thought of it before. And D-Day like you've never thought of it before. And I think M.B. chose one of the most haunting days in American history to write about. But she did it with these five women. Each one different. Different facets of this whole conflict."*
-Adriana Trigiani, New York Times Bestselling Author

Female-led World War II fiction, in the spirit of *Dunkirk* and *1917*, that follows the lives of five very different women as D-Day unfolds. There are forbidden romances, treasonous alliances, painful losses, and mother/daughter conflicts, all against the backdrop of one of history's most critical days.

The story interweaves between:

- MILDRED**, an American radio star living in Berlin (based on the historical figure "Axis Sally," the first woman in the US convicted of treason)
- FLORA**, a member of the French Resistance
- THEDA**, a British medical volunteer in Portsmouth, a town just off the English Channel
- ADELAIDE**, a woman desperate to reach her daughter in the French countryside
- EMILIA**, a worker at the Caen Gestapo headquarters.

As the clock strikes midnight on June 6, each woman's life shifts on its axis. When the world's largest military invasion arrives on the French coast, they face difficult (and deadly) choices about duty, sacrifice, and identity. In the most intense twenty-four hours of their lives, all five women summon unknown strength and make impossible decisions.

Ohnita Harbor Mystery Series

**4 Book Series from
New York Times
Bestselling Author
Patricia Crisafulli
(Woodhall Press)**

Praise for Ohnita Harbor...

If Crisafulli keeps setting her mystery thrillers in Ohnita Harbor (and I hope she will), that fictional little Upstate New York town will not only have as many bodies to bury as Midsomer County but will be as famous as Louise Penny's Three Pines or even Agatha Christie's St. Mary Mead - and justifiably so.

- Jean Zorn, Publisher, Persimmon Tree

Fans of TV's *Murder, She Wrote* and who fondly remember the Nancy Drew mysteries will find a new home in Ohnita Harbor, New York. The Ohnita Harbor Mystery Series bring to life a Great Lakes port city with three centuries of historic people, quirky modern-day characters, and an engaging protagonist—librarian and authenticator Gabriela Domenici.

The latest book, *The Secrets of Still Waters Chasm* (Sept. 2023), opens with Gabriela's discovery of two bodies on the beach of a secluded lake—which suddenly disappear after she goes for help. From a string of poisoning deaths to a nefarious development that threatens to destroy the chasm, Gabriela is caught in a web of deception and danger, as she tries to authenticate a 19th century drawing that just might be the most significant nautical discovery of the past two centuries—all while trying to salvage a romantic relationship.

In *The Secrets of Ohnita Harbor* (Sept. 2022), the first book in the series, Gabriela must uncover the origins of an unusual antique cross that turns up at the library—while staying one step ahead of a someone who wants this rare medieval artifact enough to kill for it.

The third book in the series, *The Secrets of the Old Post Cemetery*, brings to life the Traitor's Map—a Revolutionary War-era artifact that just might hold the clues to a modern-day mystery of murder and smuggling along the Great Lakes shoreline.

Also in development is the fourth book, *The Secrets Wrapped in Snow—a Christmas Mystery*.

Elva and Chester Shred History

Y/A Science Fantasy

By

Adrian Archangelo

(pen name for NYT/International Bestselling author)

On Submission

Elva and Chester are space aliens who appear to be human 17 year old teenagers but have been here on Earth since the year 1100 with the goal of helping humanity develop more empathy and compassion. (The rest of the beings in the galaxy don't want us flying around out there until we do!) The duo have no human habits to contend with, but they are extraordinarily responsive to chocolate and hold it in special regard. However, Elva and Chester find human behavior baffling, and continually see their plans twisted by human responses. Consequently nearly every wrong on planet Earth over the past thousand years was caused by one of their historic debacles that include, but are not limited to, why the Leaning Tower of Pisa leans, the spread of the Black Plague, both World Wars and unsuccessfully battling the Salem Witch Trials..

When the story opens, their bosses have shown up on Earth to express their outrage because the human race is so far behind the goal. The Overlords intend to deflect another of those big asteroids into Earth's path, just as they did to get rid of those pesky dinosaurs, and wipe out humanity once and for all. Elva and Chester demand an appeal, but will they be able to save the planet and its human inhabitants?

MIDDLE GRADE NOVELS

OLIVETTI

By Allie Millington

Middle Grade - Feiwel & Friends

March 26, 2024 release

Audio Book Sold to Recorded

TV/Film Represented by Mary Pender/UTA

Review by Tom Hanks in NYT 3-24-2024

Being a **typewriter** is not as easy as it looks. Surrounded by books (notorious attention hogs) and recently replaced by a computer, OLIVETTI has been forgotten by the Brindle family—the humans he’s lived with for years. The Brindles have become busy creatures: Felix and Beatrice work constantly, three of their children put the *extra* in extra curriculars, and Ernest, their reclusive, guarded twelve year old, goes off alone to read his collection of Oxford English Dictionaries. The least they could do was remember OLIVETTI once in a while, since he remembers every single word they’ve typed on him. It’s a thankless job, keeping memories alive. OLIVETTI gets a rare glimpse of action from Beatrice, his used- to-be most frequent visitor—only for her to drop him off at Heartland Pawn Shop and leave him helplessly behind.

It isn’t until Ernest spots him in the shop window that OLIVETTI learns **Beatrice has mysteriously gone missing**. OLIVETTI believes he can help find her *and* prove he’s more than just some pawn. He breaks the only rule of his ‘kind’ and **types back to Ernest, divulging Beatrice’s memories stored inside him**.

Their search takes them across **San Francisco—typing on toilet seats, dodging a dumpster-diving girl, and sure, committing a few minor felonies**. As OLIVETTI spills out the past, Ernest is forced to face what **he and his family have been running from *The Everything That Happened***. Only by working together will they **find Beatrice, friendship, and the parts of themselves they’ve lost**.

This Middle Grade magical realism story is told from the unique vantage points of a witty **typewriter** and a lonely, introverted boy—both of whom **discover their voice and belonging**. It’s full of humor, heart, and the magic of memories.

About the Author:

Allie is an author, artist, and has been known to be spotted foraging in the woods. Growing up, every day after school she’d throw a ball against a wall for hours on end speaking stories into existence. (Much later she discovered she shared this childhood quirk with Judy Bloom, which made her feel less crazy).

At eighteen, Allie moved from Atlanta to England, where she worked in a secondary school, and eventually met her husband. In their first three years of marriage, they moved to Brazil to serve in classrooms and soccer fields, then became house parents for young adults in Foster Care back in Atlanta. She can never get enough of middle schoolers, though, so she also works part time as the program coordinator for a non-profit that mentors under-resourced students. Olivetti is Allie’s debut novel. ★ **OLIVETTI Kirkus - 02/01/2024**

A magical typewriter brings healing, reconnection, and new friends to a hurting family. Olivetti, a silent but fully conscious typewriter, has been there since the beginning, living with parents Felix and Beatrice and their children, Ezra, Adalyn, Ernest, and Arlo, a "copper-colored family with eyes as rich as ink." Olivetti, who even took part in Felix's proposal to Beatrice, watched playfulness and creativity grow as the children arrived, and he faithfully remembers every single word the people have typed. Then, longing to communicate, he watched the family suffer through Everything That Happened. Which is exactly what seventh grader Ernest is still trying to forget. Constantly carrying his dictionary around, Ernest spends most of his time on the roof away from others, scared of getting close to people for fear of losing them. So, when Beatrice suddenly leaves after taking Olivetti to a pawn shop, grief-stricken Ernest seeks him out and confesses that he fears he's to blame for her departure. Desperate to help, Olivetti takes the unusual action of breaking typewriterly code: He communicates with Ernest in order to help him. But will it be enough? The chapters are told from Olivetti's and Ernest's first-person perspectives and frequently contain flashbacks. Debut author Millington skillfully delivers a complex storyline that deals with heavy topics. With plenty of quotable wisdom, richly textured language, and dry humor, this work reads like a classic. An extraordinary journey that speaks to the "before" and "after" of life-changing events. (Fiction. 10-14)

★ **OLIVETTI - Booklist - 01/01/2024**

An introverted boy and his missing mother's cherished typewriter plumb forgotten family stories while journeying toward acceptance in this touching middle-grade mystery. The Brindle family swarms distractedly around seventh-grader Ernest, everyone fixed in their ways until the morning Beatrice, his mom, vanishes. This isn't the family's first trauma, but, after "Everything That Happened," Ernest finds an unexpected ally: Olivetti, Beatrice's classic typewriter, who explains, "We [typewriters] hold thousands of stories. Worlds full of words." Because Beatrice spilled her "secrets all over [his] keys," Olivetti breaks his code of silence and recounts Beatrice's writing to help Ernest trace her. As inanimate narrators go, Olivetti is especially well suited to the task and takes turns with Ernest in lending his perspective to the short chapters. And, as stories about stories go, Olivetti's and Ernest's insights about the power of memories, both held and shared, speak volumes. Emotional fragility pervades this introspective debut; sensitive readers should be aware of themes of major illness and its recurrence. Offering a Where'd You Go, Bernadette vibe, with its unspooling of a youth perspective on the adult world, this melancholic yet hopeful pick will appeal to fans of books with nonhuman protagonists and readers who enjoy emotional stories with alternating perspectives, such as Jasmine Warga's *A Rover's Story* (2022) and *The Lost Library* (2023), by Rebecca Stead and Wendy Mass. — Kit Ballenger

OLIVETTI – School Library Journal

Gr 4 Up—A lively and tender story about language, archive, and family history, Millington's debut will keep young readers on their toes. Ernest Brindle's family is falling apart after the sudden disappearance of his mother, Beatrice. His siblings are squabbling, his father is unraveling, and he can't figure out why his mother would have sold their beloved typewriter to a pawn shop, of all things, before running away. Enter Quinn, the precocious daughter of the pawnbroker. When Quinn and Ernest discover that Olivetti (the typewriter) is "alive" and can type for them every memory that has been recorded on its keys, they begin a race against time to discover anything and everything the Olivetti can recall about Beatrice. With the help of a friendly, if rather stereotypical, librarian and a Brazilian handyman, the Brindle family use Olivetti's unique ability to scour Beatrice's memories for clues to her whereabouts. This is a charming story filled with idiomatic expressions and wordplay. Formatted in alternating chapters between Ernest and Olivetti's points of view, readers will be delighted by the book's playfulness, as well as its bittersweet look at the power of memory, and how a family can be broken and then healed.

VERDICT A quirky, heartfelt novel recommended for general middle grade collections.—Nora G. Murphy

OLIVETTI – Publishers Weekly "[A] unique debut. Despite the recent appearance of a laptop ("the glossy show-off"), Olivetti has accumulated "an endless amount of memories" working with owner Beatrice. His patient existence is upended when he's abruptly sold to a pawn shop and Beatrice goes missing... Olivetti's snarky observations entertain, and the human protagonists' endearing support for each other's endeavors **paints a worthwhile portrait of community.**"

PICTURE BOOKS

HER NAME WAS MARY KATHERINE:

**The Only Woman Whose Name Appears on
the Declaration of Independence**

Text by Ella Schwartz

Illustrations by Dow Phumirok

Christy Ottaviano Books/Macmillan

George Washington, Thomas Jefferson, Benjamin Franklin, John Hancock. These are the names most people associate with the American Revolution. Rarely do people think of influential women who impacted the founding of America. That's because their contributions have been largely ignored.

One such brave woman was Mary Katharine Goddard. Her name is the only woman's name that appears on an official copy of the Declaration of Independence. While she wasn't a signer of the Declaration, her role in the fight for our nation's freedom is equally important to our nation's history—yet Mary Katharine Goddard is barely recognized in history. This fierce patriot should be celebrated as one of our nation's Founding Mothers, but her legacy has faded into obscurity.

Mary Katharine Goddard defied societal norms of her time. While most colonial women barely learned how to read and write, Mary Katharine operated a successful printing business. She went on to run several colonial newspapers, including the influential Maryland Journal, which printed news of the Revolutionary War. She fought for the freedom of the press before the First Amendment was drafted. She campaigned fiercely for liberty and was as staunch a patriot as any of the Founding Fathers. When she was bestowed the honor of printing an official version of the Declaration of Independence, she boldly added her name to the document, announcing to the world that she was ready to sacrifice her life for the vision of America she so strongly cherished. It's time the world learned about Mary Katharine Goddard. Businesswoman, Journalist, Revolutionary, Patriot.

Ella Schwartz is the author of four upcoming middle grade books including **CAN YOU CRACK THE CODE? A FASCINATING HISTORY OF CIPHERS AND CRYPTOGRAPHY** (Bloomsbury, 2019). Ella is a cybersecurity specialist interfacing with the U.S. federal government on strategic technology initiatives. Read more about Ella at www.ellasbooks.com. STOLEN SCIENCE

The Untold Stories of the Scientists and Inventors Almost Written out of History

**By Ella Schwartz
Bloomsbury Kids**

Sometimes history is a big lie. Over the centuries, certain scientists and inventors have been overlooked time and again, not because their work wasn't brilliant, but because of who they were. For much of history, discriminated groups including women, minorities, and immigrants often had to claw their way past biases, only to have the credit for their discoveries stolen by their white, male colleagues. The goal of this book is to set the record straight and finally give credit where credit is due!

STOLEN SCIENCE: The Untold Stories of the Scientists and Inventors Almost Written out of History tells the stories of scientists not recognized for their work due to their race, gender, or ethnicity. *STOLEN SCIENCE* will celebrate the achievements of pioneering scientists who have paved the way for the next generation.

Written by established middle grade nonfiction author, Ella Schwartz, the creative mind behind *CAN YOU CRACK THE CODE? A FASCINATING HISTORY OF CIPHERS AND CRYPTOGRAPHY* (Bloomsbury 2019) and *MAKE THIS!* (Nat Geo 2019).

The NEWTOWN Manifesto

An American Tragedy

By Matthew Lysiak

Gallery Books/Simon & Schuster

DOCRIGHTSAVAIL

WITH OVER FIVE HOURS OF VERIFIED AUDIO RECORDINGS BY SHOOTER

In the vein of Dave Cullen's *Columbine*, the first comprehensive account of the Sandy Hook tragedy—with exclusive new information that chronicles the horrific events of December 14, 2012, including new insight into the dark mind of gunman Adam Lanza via discovered recordings by author.

26 people dead; 20 of them schoolchildren between the ages of six and seven. The world mourned the devastating shooting at Sandy Hook elementary school in Newtown, Connecticut in December 2012. Now, here is the startling, comprehensive look at this tragedy, and into the mind of the unstable killer, Adam Lanza. Drawing on hundreds of interviews and a decade's worth of emails from Lanza's mother to close friends that chronicled his slow slide into mental illness, *Newtown* pieces together the perfect storm that led to this unspeakable act of violence that shattered so many lives.

Newtown explores the two central theories that have permeated the media since the attack: some claim Lanza suffered from severe mental illness, while others insist that, far from being a random act of insanity, this was a meticulously thought out, premeditated attack at least two years in the making by a violent video-gamer so obsessed with “glory kills” that he was willing to go to any length to attain the top score. Lanza's dark descent from a young boy with adjustment disorders to a calculating killer is interwoven with the Newtown tragedy as it unfolded at the time, told from the points of view of eyewitnesses, survivors, parents of victims, first responders, and Adam's relatives. A definitive account of a tragedy that shook a nation, *Newtown* features exclusive material including initial misinformation reported by the media and commentary on how this American tragedy became a lightning rod for political agendas, much like *Columbine* did more than a decade ago.

Matthew Lysiak was a staff writer for *The Daily News* (New York) who has received national recognition for his exclusive reporting on the shootings at Sandy Hook Elementary and the Newtown killer Adam Lanza, the Aurora gunman James Holmes, the Tucson shooter Jared Loughner, the Fort Hood army psychiatrist Nidal Malik Hasan, and more. Lysiak currently lives in Arizona with his wife and four daughters. The Apple TV+ series, *Home Before Dark*, is inspired by his work and his family.

THE GREEN REAPER:

Life in a One-Woman Mortuary in Boring, Oregon

By Elizabeth Fournier

*** All cast rights secured. Deck and Sizzle Reel available.**

Elizabeth spent a lot of time in funeral homes as a kid, not because her family was in the business, but because they were so frequently found in caskets. Her mother died when she was young; so did her grandparents. Elizabeth began to read about different cultures' death rituals in *National Geographic* magazine. She held a mock cemetery on her dresser, and when friends' pets died, she would perform the funeral.

Elizabeth stood out at her tiny suburban Catholic school and knew it. After her mother's death and the loss of her fond attentions, Elizabeth performed dance routines for anyone she could press into watching. Her family's garage was the scene of many an elaborate recital. The dancing put joy back in her life but did nothing to assuage her sense of wrongness. Grief had hurt Elizabeth in ways she couldn't put into words. Elizabeth felt starved for reassurance, and without it, an inner voice began to chant that she was pathetic. She wanted to crawl into a tire swing and die.

Elizabeth realized her life calling when she was offered the chance to be a live-in night keeper at a funeral home on a big hill. For Elizabeth, it was a casting call from Hollywood. She took the job and slept in a trailer on the spooky edge of the cemetery, with a shotgun under her bed. It was the scariest summer of her life, but it set things in motion. Elizabeth continued learning the ropes in the funeral world while living in the San Francisco Bay area, but her biological clock was ticking louder by the month while her dating life stalled at Dysfunction Junction. A move back to Oregon proved fruitful; in a mortuary version of romance, she found her husband after descending into the bowels of the corporate funeral home where they both were employed. (He worked there as a cremator). They soon married and together broke free from the corporate funeral home world and headed off to tiny Boring, Oregon, to make a fledgling country funeral home their own. Daughter, Sofia (named after the Catholic Patron Saint of Widows) arrived the following year and Elizabeth brought her to the parlor every day. Sofia soon taught her that by lying in a grief-stricken widow's arms for a moment, and she could help the tension ease a bit. The baby held a natural gift of comforting the bereaved.

At the start of Elizabeth's career, it was truly an anomaly to walk into a funeral home and be greeted by a woman. Now Elizabeth runs a one-woman funeral service in the small town of Boring, a semi-rural community just outside of Portland. Elizabeth is the owner and operator of Cornerstone Funeral Services, the first green funeral home in the Portland Metropolitan area. She works as a green mortician and eco-educator and is affectionately known as the Green Reaper because of her passion of home funerals and natural burials. Elizabeth is always ready to lend a hand (or a shovel) and she is renowned for burying her townsfolk in their backyards.

Her story weaves anecdotes linked by her "Green Reaper" philosophy of eschewing big profits and instead returning to old-school burial practices that are far kinder to humans and the Earth. Elizabeth is inherently led toward helping others relate to death through taking care of their dead, and to preparing more meaningful burials. Through these experiences, she continues to reach more of her own healing and to reestablish inner connections. Some of us work for a better life; Elizabeth works for a better death.

THE ART OF THE CON

By Anthony M. Amore

St. Martin's Press

** 12-part Limited Series Proposal Available*

Art collectors simply want to believe. *They want to believe very badly.*

Hermann Goering's eyes opened wide when he saw Johannes Vermeer's *The Woman Taken in Adultery*. With only 35 or 36 known paintings attributed to the great Dutch master (scholars will probably argue over the actual number forever), a "new" Vermeer would be a crowning addition to his growing, awe-inspiring, and completely ill-gotten art collection. Even that failed artist Adolph Hitler himself, who at the time was building his *Fuhrermuseum* in which he would display the greatest art collection he could steal and loot, hadn't scored such a coup as a heretofore unknown Vermeer. Never mind the fact that *The Woman Taken in Adultery* didn't look at all like the work of Vermeer.

Goering had to have it and traded 200 looted paintings to the person in possession of this "missing Vermeer," mediocre artist Han van Meegeren. Later, with the war over and facing execution, van Meegeren admitted that he had forged the alleged Vermeer and proved so by painting another in the courtroom. Goering, facing his own trial in Nuremberg, was informed of the forgery, but steadfastly refused to believe it. Art fraud has been a consistent scam used by con artists throughout the decades.

And even today, armed with the advances in methods used to unmask fakes and the knowledge of the widespread problem of art forgery, dupes continue to line up to buy bogus "masterpieces." The news continues in the headlines with the breaking news recently that Glafira Rosales had sold 63 Modernist fakes for an estimated \$80 million, with her own personal take a cool \$33 million. All that for paintings put on canvas by a Chinese immigrant who, having failed at his own attempt at art superstardom in the United States, worked for Rosales out of the garage of his home in Queens, often putting his forgeries out in the driveway to dry out in the sun. And just last year, authorities in Germany broke up a Russian forgery gang they say sold more than 400 forgeries by artists including Kandinsky, Goncharova, and von Jawlensky.

Art scams are today so numerous that the specter of a lawsuit arising from a mistaken attribution has scared a number of experts away from the business of authentication, and with good reason. Art scams are increasingly convincing and involve incredible sums of money. The cons perpetrated by unscrupulous art dealers and their accomplices are proportionately elaborate. From these stories comes the reality show, *The Art of the Con*.

The Art of the Con will tell the stories of some of history's most notorious yet untold cons. They involve stolen art hidden for decades; elaborate ruses that involve the Nazis and allegedly plundered art; the theft of a conceptual prototype from a well-known artist by his assistant to be used later to create copies; the use of online and television auction sites to scam buyers out of millions; and other confidence scams incredible not only for their boldness but more so because they actually worked. *The Art of the Con* will also take the viewer into the investigations that led to the capture of the con men, who oftentimes return back to the world of fakes, frauds, and forgeries in the art world.

For some, it's an irresistible urge because their innocent dupes all share something in common: They want to believe.
